Rego Platform Governance

Mazimize the Value of Your ServiceNow Platform

Do you have a strategy and plan to maximize your ServiceNow investment?
Are your back office operations fragmented across multiple platforms?
We can help.

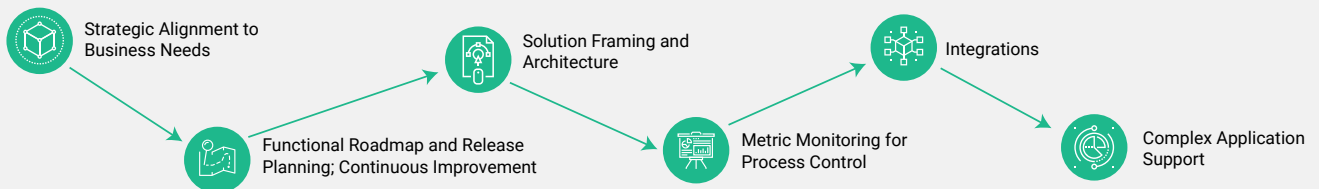

The Rego Platform Governance service helps your organization create a unified approach to using the entire ServiceNow platform. We combine **governance, strategy, and architecture** into one value-added service.

What's Included

- Practical guidance on the best use of the ServiceNow platform and applications in your digital ecosystem
- Incorporate processes that reduce and prevent technical debt
- Identify, configure, and deploy unused ServiceNow applications and functionality
- Strategy, road mapping, release planning, and solution architecture
- Evaluation of business needs and direction on which ServiceNow components will meet those needs
- Best practices and principles in solution design
- Quarterly assessments and planning, either remotely or on-site, with your teams
- Oversight of internal development or other partners

Governance, Strategy and Architecture

Roles: Strategic Advisor, RTE/Program Manager, Practice Lead(s)

Value to You

- Maximize the value and return-on-investment from your ServiceNow platform
- Roadmap for funding and efficient delivery of new functionality
- Work with a single trusted partner for continued growth of ServiceNow
- Cost-effective, fixed-cost staffing from Rego for a fraction of equivalent FTEs at your organization
