flowdock
rego consulting

Real-time Chat for Your Entire Organization.

Efficient teams need focus. That's why Flowdock centralizes your conversations, work items, and tools in one convenient location. Prioritize work, solve problems, search and organize across teams, locations, and time zones.

Features

Organized Collaboration

Flows create open spaces for your teams to converse and collaborate. Invite project stakeholders to join your Flow to participate in discussions, view updates about your tools, and receive customized notifications.

Threads
Color-coded conversations organized by threads to quickly keep track of topics.

1-1 Chat
When you need to discuss something privately with a team member.

Notifications
Choose who sees what with the Flowdock @username and @team features.

Integration Inbox

View updates from each of your favorite tools in the Inbox while also keeping your conversations clean and focused.

Integrations
Use our pre-built integrations or create your own to get to get the most out of Flowdock.

Stay On Topic
Organized by threads and color-coded, conversations stay associated with related integrations.

Search and Filter
Easily locate work items, requests, or attachments by utilizing the search and filtering capabilities in your Integration Inbox.

Flowdock drives project momentum by keeping teams connected, focused, and organized.

Keep communication flowing freely with Flowdock.
