Clarity - Agile Integration |
Bi-Modal IT

Your Guide:

Rob Greca

First things first

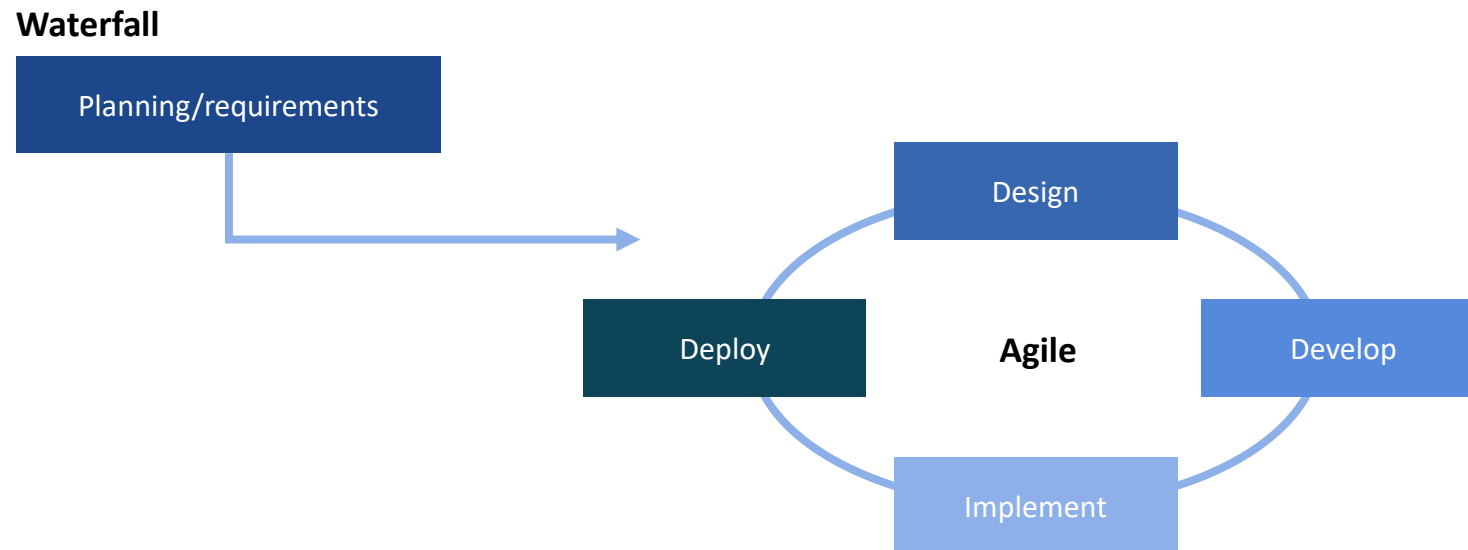

Bimodal is the practice of managing two separate but coherent styles of work:

one focused on predictability; the other on exploration

Source: <https://www.gartner.com/en/information-technology/glossary/bimodal>

First things first

Hybrid Project Management is the attempt to include management aspects from both Waterfall and Agile methods to gain an advantage that would otherwise be missed were these 2 methods not combined

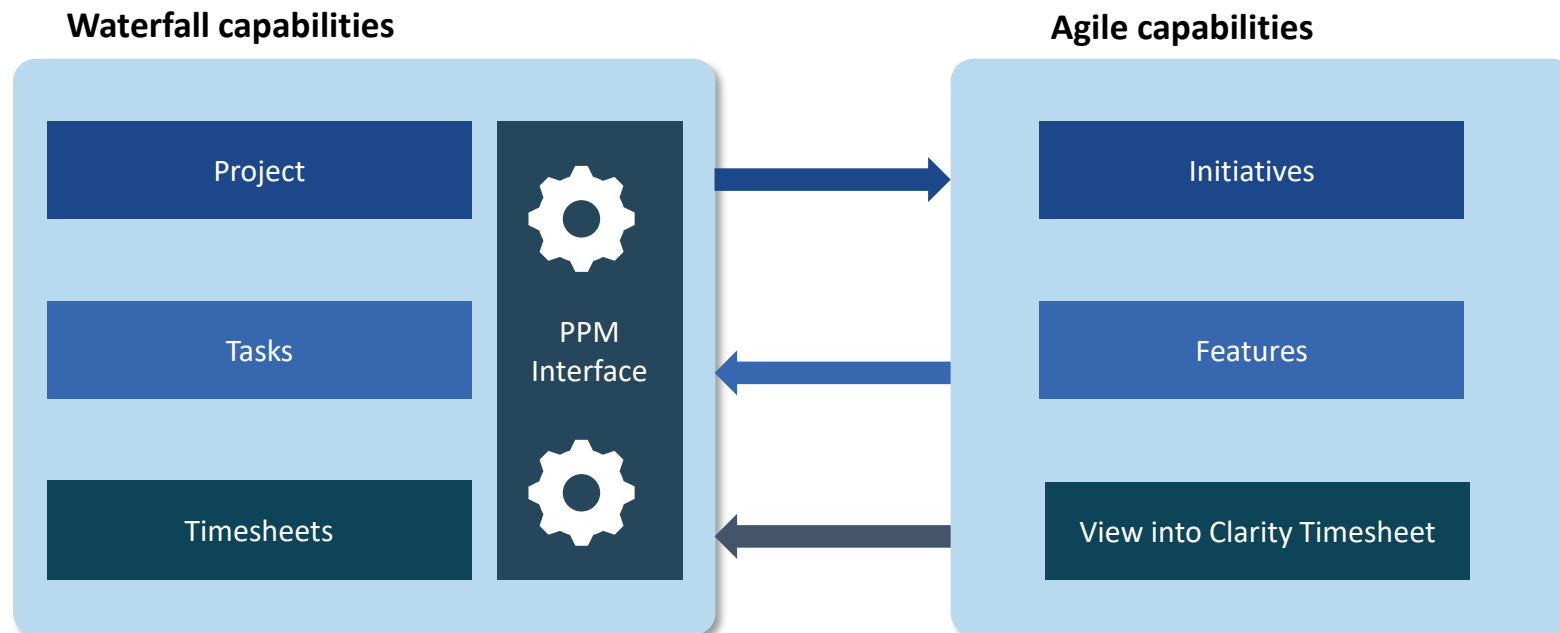

Cautionary Tale

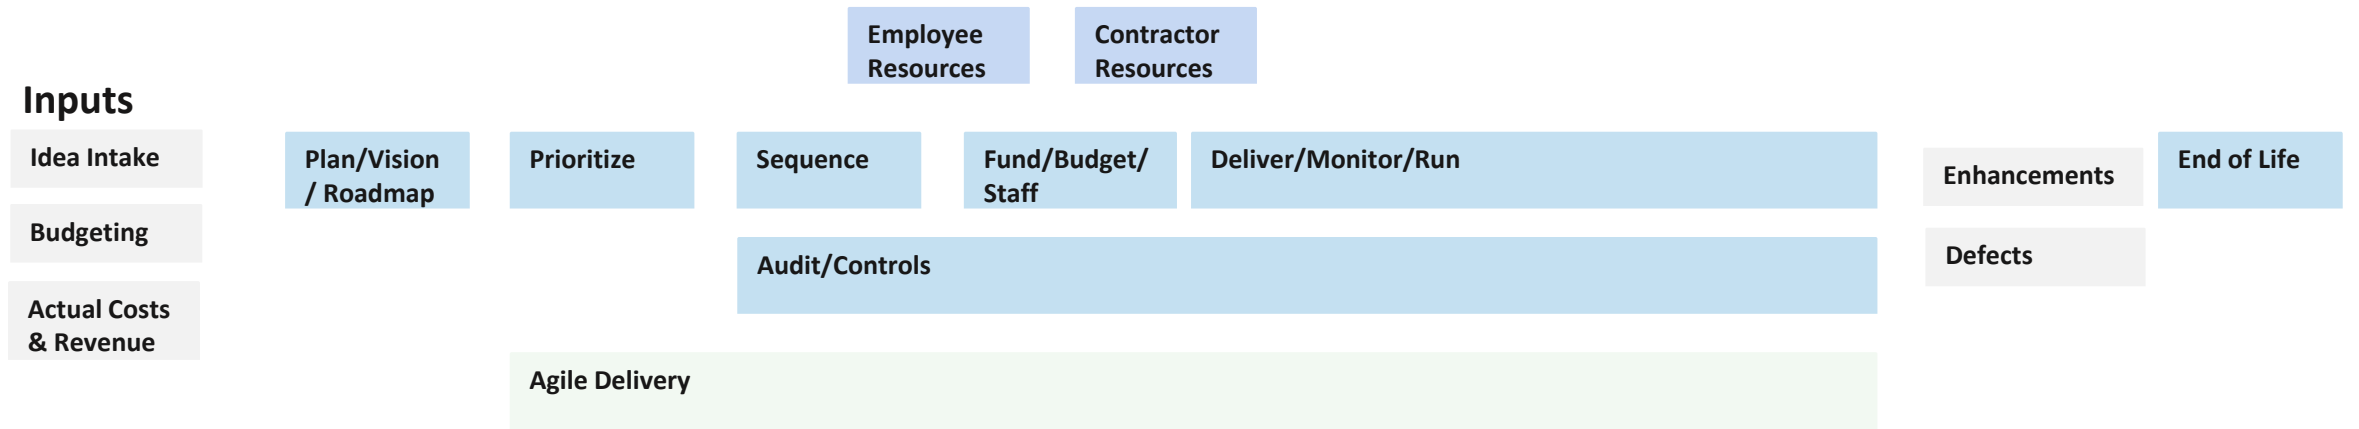

If you do not have any specific outcomes and key results expected by employing Hybrid Project Management methods, it is possible that you might have more difficulty achieving better results

- **Agile done poorly is usually better than Waterfall done right**
- **Agile done wrong can lead to disastrous results**
- **Hybrid Project Management done unintentionally, indicates more significant challenges**

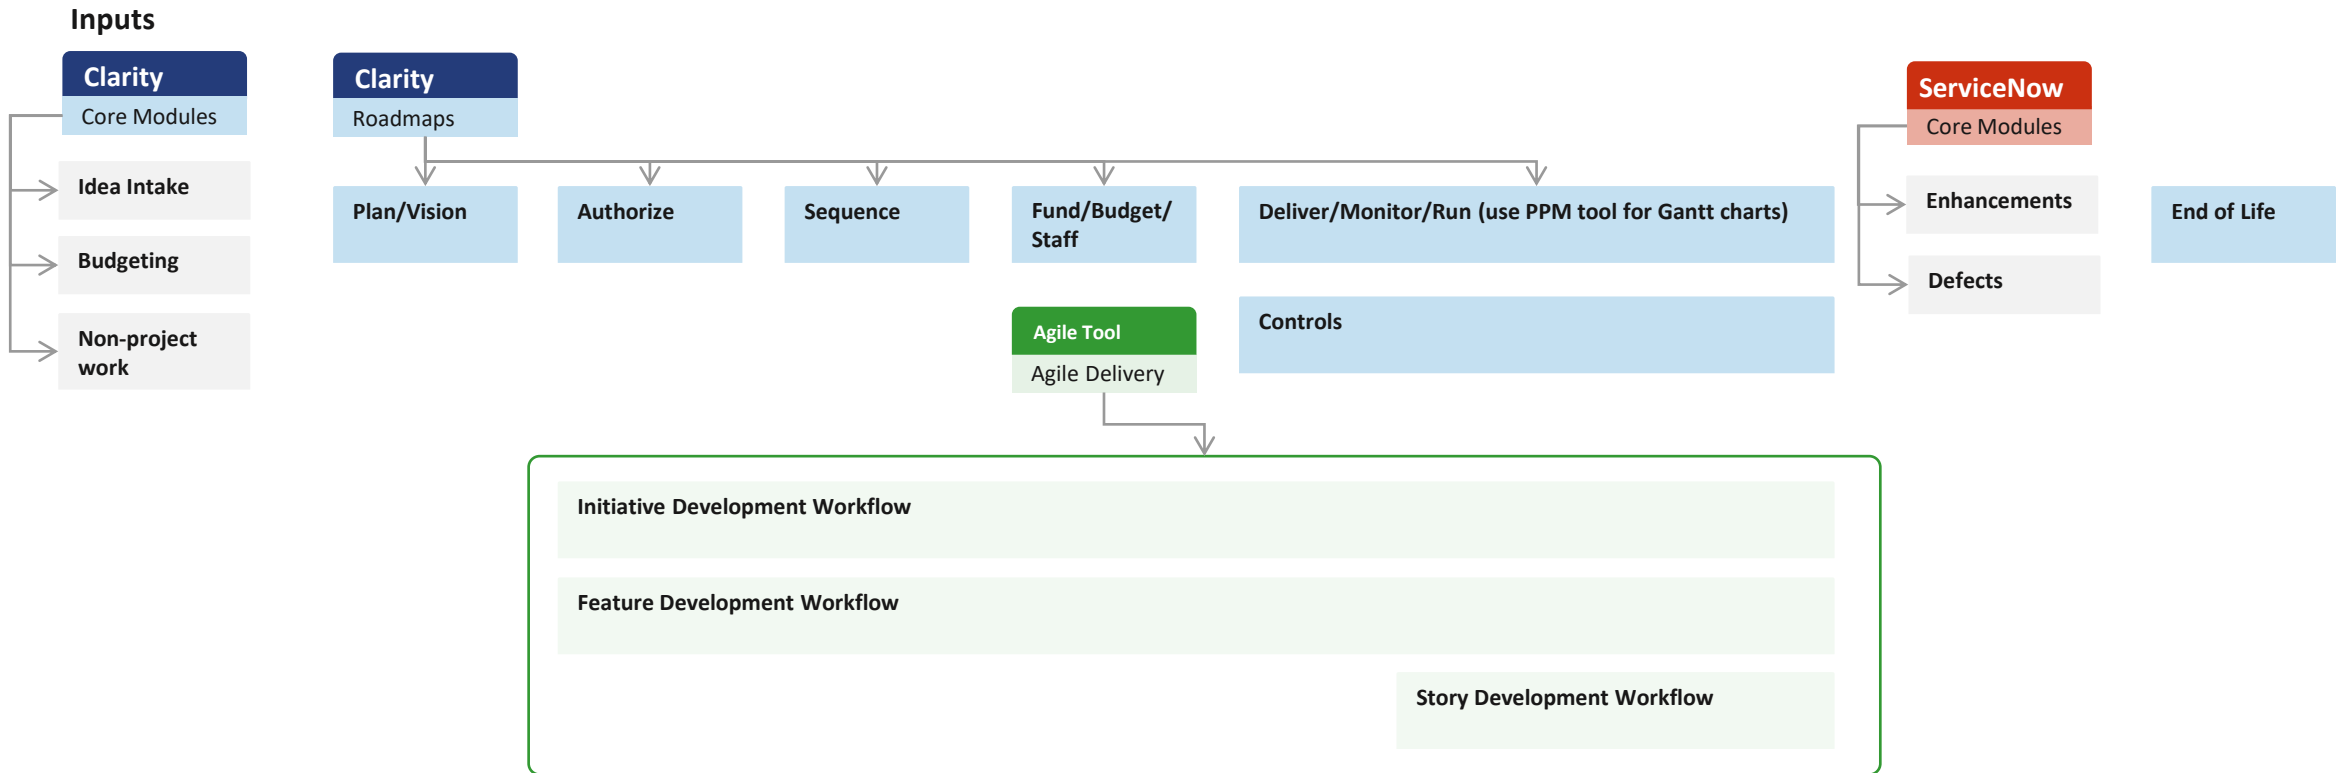

Use the right tool for the job

Product or Investment Management Value Stream

Product Management Value Stream

Factors to consider with a hybrid model

Mapping

- Project level/CIT
- Task level
- Attributes

Financials

- How do we calculate costs
- How do we differentiate capital/operating costs, if needed

Resources

- How might resources/staffing be handled

Time Tracking

- Are there any deviations needed to the standard connector time-tracking approach

Reporting

- What metrics are needed
- What views/reports are needed

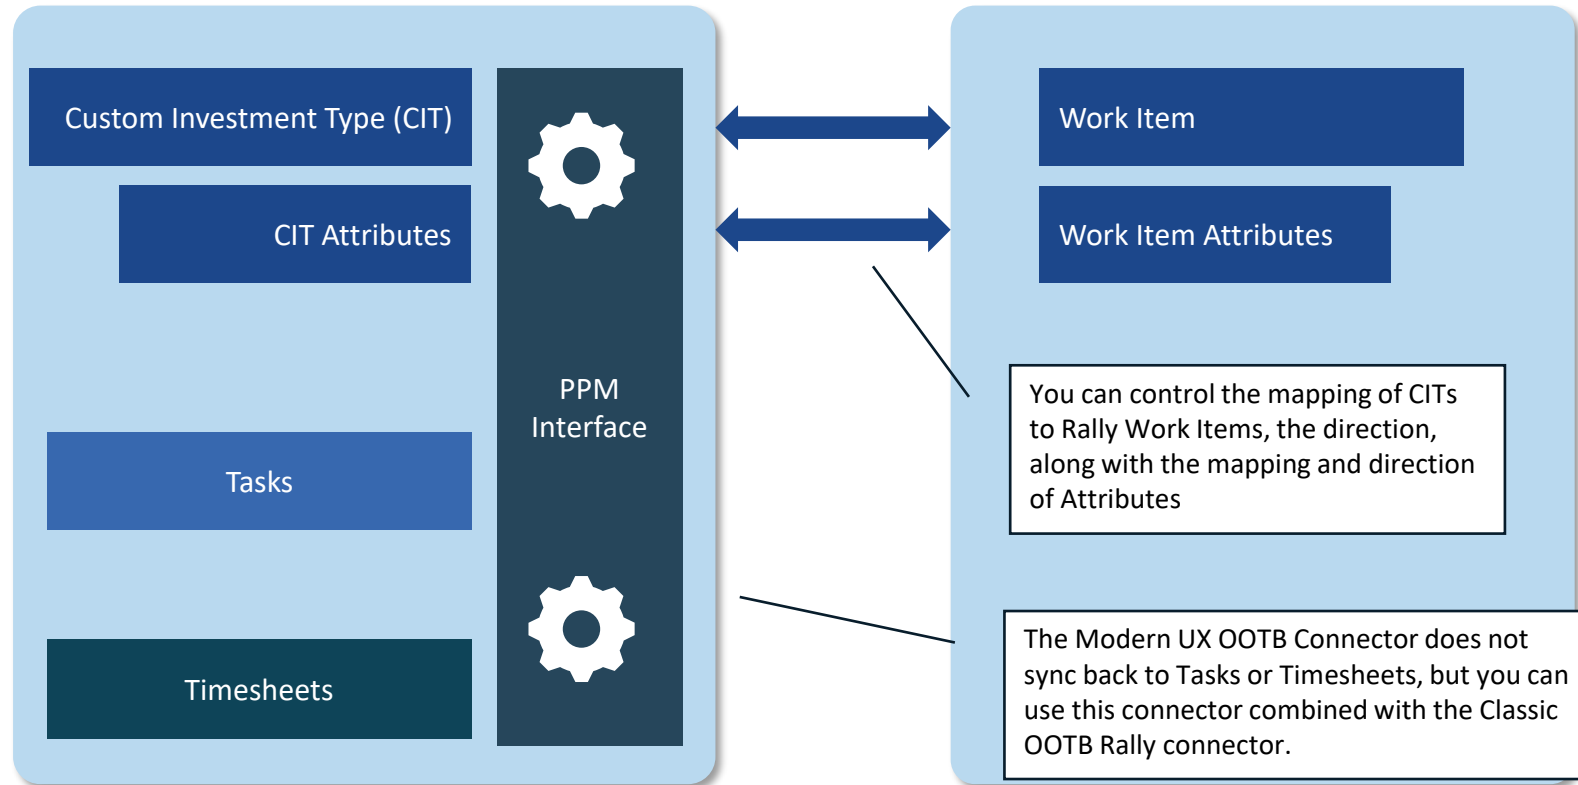

Exception Processes

- How do we handle exceptions (i.e. story moves from one project to another, etc.)
- What is an error vs a warning

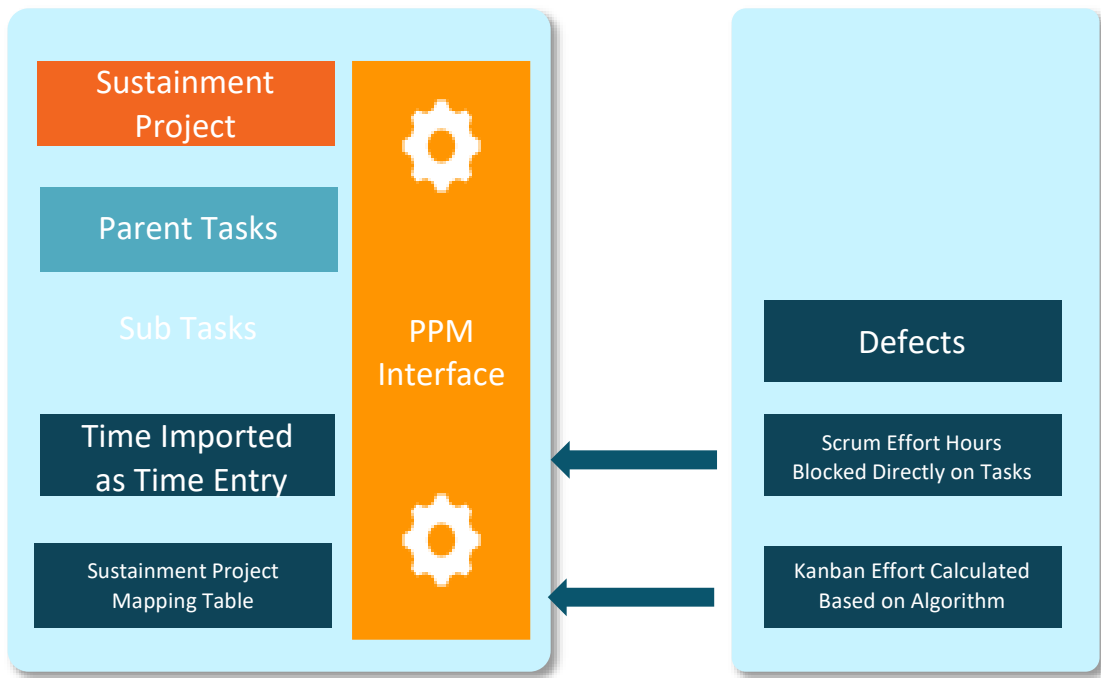

Data Migration Approach

- To go-live, how will we establish all of the connections for existing projects

Broadcom's Modern UX OOTB Rally Connector

Handling Defects from Agile

Let Rego be your guide.

Thank You For Attending regoUniversity

Instructions for PMI credits

- Access your account at pmi.org
- Click on **Certifications**
- Click on **Maintain My Certification**
- Click on **Visit CCR's** button under the **Report PDU's**
- Click on **Report PDU's**
- Click on **Course or Training**
- Class Name = **regoUniversity**
- Course Number = **Session Number**
- Date Started = **Today's Date**
- Date Completed = **Today's Date**
- Hours Completed = **1 PDU per hour of class time**
- Training classes = **Technical**
- Click on **I agree** and **Submit**

Let us know how we can improve!
Don't forget to fill out the class survey.
