## Leveraging Instagram In Your 2021 Strategy Through The Lens of Destination Marketing

#### **Erin Brown & Bristol James**

VERB Interactive

## **About VERB**

VERB is an award-winning marketing agency focused primarily on the travel and hospitality industry. We are based in Halifax, Nova Scotia and serve clients throughout Canada, US, UK, Australia and France.

Our Marketing Team is made up of the following specialties:

- SEO
- Analytics
- Copywriting & Campaign Strategy
- Social Media
- Paid Media
- Design / User Experience

## Today's Agenda

To give you insight into how we use Crowdriff to promote UGC, track user behavior, and benchmark for success, we'll be discussing:

- How we use Crowdriff at an agency
- How we track Crowdriff Galleries
- Basics of Instagram analytics -Erin
- The importance of benchmarking metrics
  - Industry Specific Data
  - How to Maximize Engagement
  - Content Type
  - Character Limit
  - Audience Data
  - Posting Frequency
- $\cdot\,$  The Outliers
- $\cdot$  Data Trend Chart
- Analytics in the time of COVID-19
- Using Instagram to support your 2021 Strategies

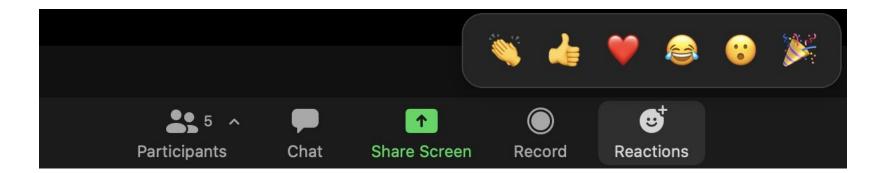

## Housekeeping

Please mute your mic when you're not speaking.

We LOVE engagement and discussion, but please wait for others to finish speaking.

Use your Zoom reactions to participate in polls.

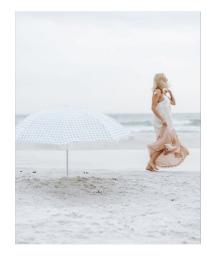

Have a question? Feel free to type it in the chat box or turn your mic on to ask us.

### LEVERAGE USER-GENERATED CONTENT WITH CROWDRIFF

Find the best usergenerated content for use on websites, visitor guides, social media, and more.

Source and request rights to photo and video assets.

Manage assets in one searchable library.

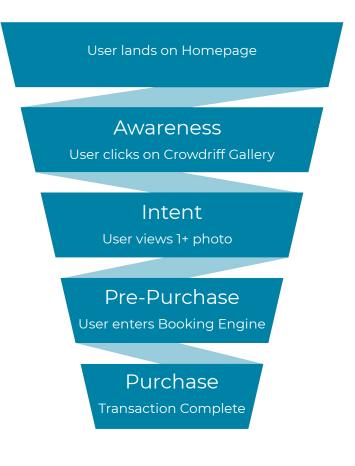

Create dynamic, clickworthy galleries for your website.

## How We Track Crowdriff Galleries

We use Google Analytics to monitor Crowdriff gallery performance by tagging click events on galleries with Google Tag Manager.

- A click event is when a user clicks to expand a UGC photo we've included in the gallery.
- We also want to know if a user is clicking to "View More" or views more than one photo in our gallery.
- By analyzing the ratio of users who landed on our homepage and who engaged with our gallery, we can determine how popular UGC is in driving the customer journey through the booking funnel.

## On a scale of Beginner to Pro, how comfortable are you using Instagram insights for analytics?

7

## **Basics of Instagram Analytics**

When looking at Instagram Insights, it's helpful to understand the metrics available in terms of which results you want in quantity and which you want to be of quality.

There are some numbers you want to see as high of a quantity as possible, like:

- Followers
- Engagements
- Impressions
- Reach
- $\cdot$  Profile Visits
- $\cdot$  Website Clicks

Other metrics, we want to understand in terms of their quality. This means that the metric's results reflects that we have a successful content strategy. Like:

- Engagement Rate
- $\cdot$  Follower Growth

8

## True or False: The industry standard for calculating Engagement Rate is Followers divided by Engagements.

True

9

## Importance of benchmarking

- Benchmarks provide context for your data.
- Industry specific data helps to focus on answering the question of how these numbers compare to competitors in the same industry.
- Indicates to us if our strategies are working or if we may need to revisit the content we're pushing out.

Understanding how you stack up, so your social marketing can step up:

Social Media Benchmarking for the Travel and Hospitality Industry

### **Industry Specific Data**

We're going beyond channel-specific data, and looking at industry-specific channel-specific data.

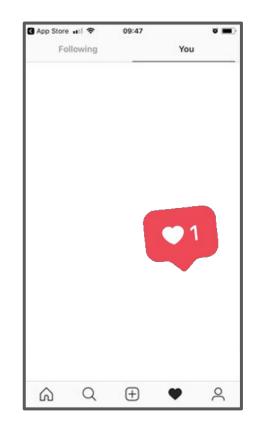

IE. Based on our competitors performance on Instagram, how are we doing?

## How to Maximize Engagement on Instagram Posts

The beauty of keeping an eye on your industry-specific data and benchmarks, is that you can really start to shape your strategy and improve your connection with your audience on Instagram.

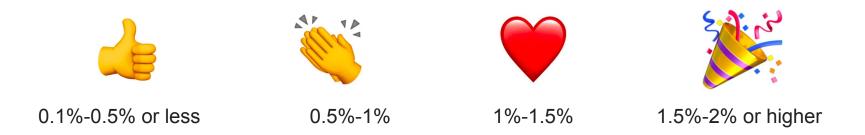

Here are the benchmarks we consider most helpful in improving your audience engagement:

- 1. Industry Engagement Rate
- 2. Content Type
- 3. Character Limits
- 4. Audience Data
- 5. Post Frequency

## What do you think is the Industry Average Engagement Rate for Destination clients?

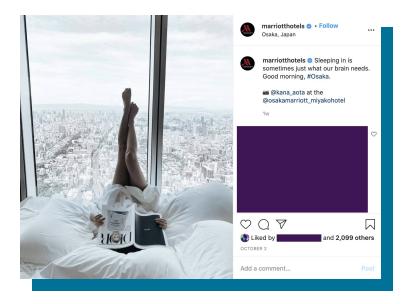

## Industry Specific Engagement Rate

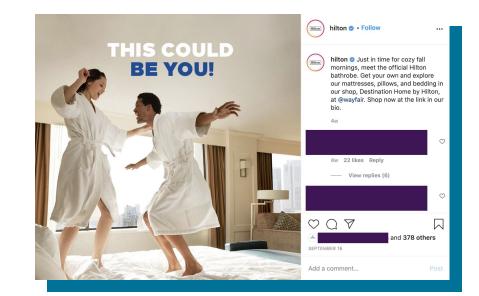

## **Industry Engagement Rate**

Industry	Instagram Engagement Rate			
Hotels & Resorts	1.03%			
Food & Beverage	1.18%			
Destinations	2.22%			

## **Content Type**

### **Content Type**

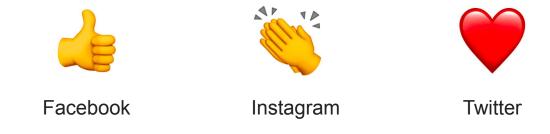

## **Content Type**

Industry	Instagram	Facebook	Twitter	
Hotels & Resorts	Photo	Photo	Video	
Food & Beverage	Photo	Photo	Video	
Destinations	Photo	Photo	Video	

## **Character Limit**

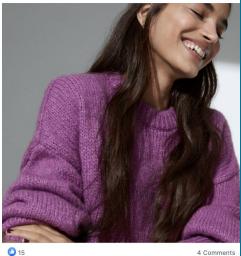

## Which platform do you think has the highest recommended Character Limit?

## **Character Limit**

shantibabyny Wow! For a gender neutral photo, that's a really sexist tag!

jennifervanriper Sexism not allowed... half the shorts for the same price and a shitty message too. I'll be taking every cent of my unequal wage elsewhere

marshalldoingthings Looks like it's time for a new social media director.

parker12017 Exactly WHERE are girls not allowed?!?! OH I KNOW!!! Wearing your sexist clothing. Hard pass.

theamazingsashav Welp this caption seems like a bad idea now. Doesn't it? Hope this doesn't hurt business. JUST KIDDING. HOPE IT DOES. YOU DESERVE

## Analytics in the time of COVID-19

#### **Be Sensitive**

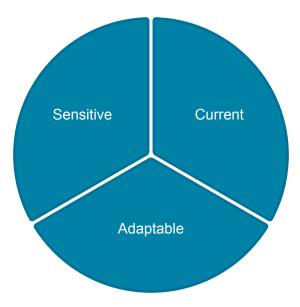

Adjust your content based on what's happening in the world to make sure your messaging meets the moment.

#### **Be Adaptable**

Allow for fluctuations in engagement rates (especially from a brand perspective).

#### Be Up to Date

Stay on top on the micro and macro changes happening in your industry.

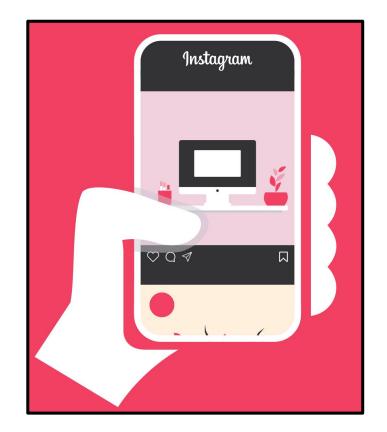

# Using Instagram to support your 2021 strategies

Although we can't predict everything, we can certainly count on data as an indication of how things are going, or if maybe it's time to rethink your approach. When looking ahead at 2021, we recommend taking a closer look at your own data and how it compares to industry benchmarks.

Some questions to get your started:

- How does my engagement rate compare to others in my industry?
- Am I posting high quality content? Should I be utilizing more images or video? Am I leveraging UGC?
- Are my captions an appropriate length?
- Am I posting too often or too little?
- Have I considered any other avenues that could amplify my reach on Instagram? (Ie. Paid Media or Influencers)

# **Thank You**
