

COMPLIANT BUSINESS TRAVEL IN A POST-BREXIT WORLD

Organisations throughout Europe and the United Kingdom are adjusting to the realities of a transformed business travel landscape.

UK and EU nationals can travel visa free between the two areas for 90 days in any 180 day period for tourist or business purposes. Although tourist activities are easy to define, business activities are slightly more complicated.

Moving forward, the type of activity that you carry out for either reason will determine whether you qualify as a business traveller or will require some form of long term authorisation.

Protect your organisation and travelling population from non compliant consequences as they return to travel.

Complex travel is quickly flagged for thorough evaluation.
