RELIABILITY &
MAINTAINABILITY
CENTER
RMIC Approved Course*

PRODUCTIVITY + AVAILABILITY = HIGHER PROFITABILITY

NEED TO IMPROVE PERFORMANCE?

Creating a reliability focused culture begins with leadership, empowerment, and generally requires culture transformation.

Our course differs from standard off-the-shelf supervisor and manager training. Our training addresses the unique challenges and opportunities facing maintenance supervisors and managers. Training to optimize maintenance performance is all we do, and we do it best.

YOU SHOULD ATTEND IF YOU:

- Need to transform your culture, setting vision and purpose
- Manage, supervise or lead others, especially technical trades professionals
- Are considered a high potential candidate for future opportunities
- Are undergoing or will undergo reliability or other improvement initiatives

Rave Reviews:

"Great Course! Enjoyed the experiences of the instructors and other classmates. This course should be offered more often and on-site refreshers or "crash" courses for upper management at plants. Material was delivered in a clear and concise manner by true subject matter experts. Hope to attend other courses that may apply to my professional growth. Thanks again."
