

RELIABILITY & MAINTAINABILITY IMPLEMENTATION CERTIFICATION (RMIC®)

Continue to develop your professional career at the University of Tennessee with one of the few programs of its kind in the nation. This program provides the basic foundation of R&M knowledge and offers the flexibility to include the specific training that you need. The RMC has designed the program for working professionals and gives the most hands-on, practical maintenance exercises, reliability education and coaching and mentoring. The RMIC® is a College of Engineering Guided Professional Development Program through training partner People and Processes, Inc.

REQUIREMENTS

1. Complete the Maintenance and Reliability for Managers – 4 Part Series
2. Complete one week of Focused Onsite Coaching and Mentoring
3. Complete an implementation project (3-6 months)
Project will be guided by People and Processes and presented to company management.
