

RMIC® PLANNING AND SCHEDULING PRACTITIONER CERTIFICATION

Continue to develop your professional career with People and Processes, Inc. a training partner of the University of Tennessee with one of the few programs of its kind in the nation. This program provides the basic foundation of R&M knowledge and offers the flexibility to include the specific training that you need. We designed the program for working professionals. It offers the needed mix of hands-on, practical maintenance exercises, reliability education with coaching and mentoring. The RMIC® is a College of Engineering Guided Professional Development Program through training partner People and Processes, Inc.
