

Clone An ILP

An option to "clone" a previous ILP for a student when a user creates an ILP for a new year is soon to be released.

The clone feature will create a new ILP for the student, including a copy of the data listed below from the chosen source year:

- Evidence - Disability Status
- Evidence - Key Disability
- Evidence - Other Factors
- Evidence - Impact on Learning
- Evidence - Strategies/Interventions
- Evidence - Key Stakeholders
- Evidence - Attachments and Notes
- Adjustment records - no attachments or notes

The intended effect is that the new ILP is a follow-on from the source year. Data likely to remain the same is copied to the clone, data specific to the source year is not copied, allowing opportunity for documentation of activities of the new year.

New ILP Record

Kennith Theel 10528

New ILP for Form Run

2021 Year 12

Clone earlier ILP

2020 Year 11

A clone ILP will be produced with a copy of the following data from the ILP selected:

Disability Status

Key Disability

Other Factors

Impact on Learning

Strategies/Interventions

Key Stakeholders

Evidence Attachments and Notes

Adjustment records - no attachments or notes
