

## 5S SOLUTIONS

### THRIVE AS A N.E. OHIO MANUFACTURER

Are you performing cleanup fire drills to prepare for guests? Are operators regularly looking for their items? If so, MAGNET'S experts can help you implement and sustain a 5S program. A 5S implementation helps define methodologies to eliminate waste and maintain an efficient, safe, and clean work environment. You will gain efficiency and productivity with a 5S methodology doesn't require any technical analysis, and is easy for everyone to implement.

### Why implement 5S?

5S is a continuous improvement activity that organizes your facility. It is the start of an all-inclusive, lean thinking mindset, that is the building blocks for your organization's culture change into the world of engaged employees and improved efficiencies.

### What are the benefits of a 5S program?

5S impacts everything in your facility and is directly linked to productivity and efficiency improvements, scrap reduction, and improved safety and morale.

Learn more by reviewing the three solution areas supported by MAGNET: **Training, Implementation, and Maintenance.**
