

# NEW ImpactAir<sup>®</sup> ISO-90 Monitoring Platform

## ISO-90 - Monitoring Head

- Chamber – 9cm agar plates
- Rotating plate
- Precision flow sensing
- Calibration stored in the head
- Local 'start' button & status indication
- Simple one press operation
- VHP compatible
- Compact - only 122mm diameter
- **D50 <0.75 $\mu$**
- **Up 4 hour monitoring per plate**
- **3.6m<sup>3</sup> in 4 hours (66 min/m<sup>3</sup>)**

Annex 1

*Bench-top Base*

*Tri-Clover Clamp Base*

## ISO-CON - Flow Controller

- Vacuum pump
- Control electronics & software
- Graphical User interface
- Ethernet – System compatible. MODBUS
- HEPA Filtered exhaust
