

Connected Community, Stony Plain

PROJECT DESCRIPTION

Stony Plain FCSS specific work will fall under the strategic focus area of Building Resilience and Security under our Inclusion and Diversity strategy. Resilience and security include creating safe communities and our framework is called Connected Community, Stony Plain.

Connected Community:

- Annual Neighbours Day Celebration
- Neighbourhood Connect
- Neighbours Meeting Neighbours Community Event Project
- Cultural Campfires

Vision

A strong, healthy and connected community that cares about their neighbours and celebrates Stony Plain as a great place to call home and each other as good neighbours.

Purpose

Fostering grassroots efforts to connect and support neighbours, this project will cultivate a culture of care and connection, increased sense of belonging and inclusion, and ultimately create a healthier and more livable town - one block at a time.

The framework builds neighbours who look out for one another, share our talents, skills and resources with one another, recreate together, and collectively create the neighbourhoods we desire.

Outcomes

- Community is connected and engaged.
- Community social issues is identified and addressed
- Individuals experience personal wellbeing.
- Individuals are connected with others.

Connected Community is all about neighbours helping neighbours and creating safe spaces in our community. Everyone is valuable and has something to offer neighbourhood life. The discovery of the skills, abilities and needs of neighbours leads to a more engaged, connected and supportive neighbourhood. Our neighbours are our greatest assets!
