

To load the PDS with members required/supplied with BIM-GSS and BIM-FAQS (ASO & PCS) 5.3A to another VSE system with separate PDS files, run the following PROCs:

FAQSIMOD.PROC - All BIM-FAQS/ASO REXX supplied IMODs
FAQSSCRN.PROC - All BIM-FAQS/ASO SDF and HELP panels

BIM\$IMOD.PROC - All BIM-GSS REXX supplied IMODs
BIM\$SCRN.PROC - All BIM-GSS SDF and HELP panels
BGSMSGLD.PROC - All BIM-FAQS and BIM-GSS Error and help messages

PCSCRN.PROC - All BIM-FAQS/PCS REXX supplied IMODS
PCSOAL.PROC - All BIM-FAQS/PCS SDF and HELP panels

BFAQLOAD.PROC - All BIM-FAQS (ASO & PDS) SAMPLE FILE DEFINITIONS

Note: BFAQLOAD will only load the samples if they are not already present on the PDS. This is a change from previous releases.

Note: If you have a release of VSE/ESA prior to version 2, be sure to execute the PROCs from the library for that VSE/ESA release!
