## ITS Fiber Merges with Blue Stream Fiber

We are thrilled to have merged with Blue Stream Fiber earlier this month and to join a family with the same clear vision for providing you with a world-class fiber optic network and unmatched customer service.

As a result of the merger, you will benefit from additional products and services, and an expanded local customer support team. As a collective company, we will now offer services in extended areas on the Treasure Coast and beyond, and cumulatively offer you over 100 years of experience. Most excitingly, we can't wait to offer our TV services starting in Q3 of 2021 – This includes our TiVo IPTV platform with Voice Remote Control, Google Android Set-top-boxes and network DVR! ## ITS Helps Support Holiday Giving to Local Family

When the Indiantown Chamber of Commerce received a special request from the **Children's Home Society of the Treasure Coast** informing them about a local Indiantown family in need this holiday season, ITS Fiber joined other local businesses to help. The single mother was in a recent car accident and is now unable to work. The Children's Home Society attempted to get the family some of the local holiday-giving support, but the deadlines had passed to be registered for these services.

ITS and other businesses in Indiantown are collecting clothing and other gifts from their employees so the mother and her three children (under 12 years old) can have a good Christmas. The Indiantown Chamber will assist the Children's Home Society to distribute the gifts to the family in time for Christmas. Thanks to the Children's Home Society and the Indiantown Chamber for bringing the situation to our attention. We are so happy to give back – that is what the holidays are all about!
