

Brookwood Community,

The level of participation from all constituencies over the past several weeks is inspiring. It was heartwarming to witness our own community re-engage with each other over Zoom and in-person. Each candidate remarked on the strength, dedication and warmth of our extraordinary community. Thank you for making our candidates feel welcomed.

This week, the search committee will carefully review the Brookwood community's feedback along with the variety of other materials, assessments and reference discussions, with a focus on the established selection criteria represented in the position description. The committee will then make its candidate recommendation to the Board of Trustees for approval by a full Board vote. An announcement to the community from the Board will follow in due course by late summer.

In the meantime, please be well and enjoy these summer days!

Warm Regards,
