Notice Regarding Preventive Office Visits

Many insurance companies waive your co-pay for a routine health maintenance exam; commonly known as a routine physical or preventive visit.

If during the course of your preventive visit, you request your physician/provider to address a problem that requires additional time and diagnostic evaluation, you may be subject to additional out of pocket costs (i.e. co-pay, deductible, or coinsurance), as this work is not part of a preventive exam, and is billed separately. If the problem(s) become a greater part of the visit, you may be asked to schedule an additional visit to fully address these issues. Examples would include an evaluation of underlying medical problems or evaluation of a new symptom or complaint.

If you have questions regarding your policy please call your insurance agent, your employer, or the medical benefits line. We strongly encourage you to become familiar with your health insurance policy and its rules and regulations.

It is our ultimate goal to provide excellent and thorough care to you as efficiently as possible.

I have read the above. I have received a copy of Moreland OB-GYN Associates, S.C. "Notice Regarding Preventive Office Visits."
