

We're hiring ROUTE PLANNER / IMPLEMENTATION PLANNER FOR BROADBAND AND FIBER OPTIC EXPANSION (M/F/D)

Work from Home in Greece – German Conditions

Your Tasks

- Preparation of implementation plans (civil engineering from 1000 m) in dependence on the clients
- Preparation and execution of route planning (site plans / photo documentation)
- Execution of the necessary approval procedures (incl. route and approval planning, road construction authority, railroad, nature conservation authority, etc.)
- Checking the submitted documents for plausibility
- Elaboration / creation of remote power supply concept and network structure
- Preparation of electricity application for a new feeder and obtaining a cost offer from the local energy supplier
- Creation and preparation of site plans and required documents

Your Profile

- Successfully completed technical college or university studies in civil engineering, surveying technology, geodesy, geography, energy technology or another comparable qualification gained through relevant professional experience
- In-depth knowledge of route planning and cable line construction
- Experience in interacting with public authorities / administrations
- Knowledge of communication and coordination with carriers
- Very good English language skills, written and spoken
- Knowledge of German language is an advantage
- Further education with German language courses would be possible

Your Benefits

- Flat hierarchies, short decision-making paths, long-term perspectives
- Company pension plan
- Health care
- Performance-related bonus (as agreed)
- Product discounts
- Technical equipment as required (laptop, cellphone, etc.)
