

## Auto Expense Report

Aspire provides a feature that allows work tickets for subcontracted services to automatically generate expense items when the associated work ticket is completed. This feature is described in the article, [Subcontractor Auto Expenses](#). Aspire provides the *Auto Expenses Report* available from the *Reports* screen allowing users to summarize or edit existing auto-expenses or to mass-add new auto-expenses to existing opportunity services.

Note that the system default view (*Default Search [System]*) groups opportunity services by opportunity.

The search list includes all opportunity services for contract opportunities for which the invoice type is per service or T&M, or the associated service is multi-visit. Any opportunity services that already have vendor auto-expense defined will show the vendor, item, fee type, amount and have a *More* button and *Delete* available with options to *Edit Expense* and *Delete Expense* as depicted above. If an opportunity service has multiple auto-expenses defined, that opportunity service will have one line for each auto-expense.

The following table summarizes unique elements of the *Auto Expense Report* screen compared to other search lists.

Screen Element	Description
Selection Check Box 	Allows the user to select multiple opportunity services to be affected when selecting options from the <i>Bulk Actions</i> menu.
Edit Expense option 	Available in the <i>More</i> menu, <i>Edit Expense</i> option is only available for opportunity services that have already had one or more vendor auto-expenses defined. Selecting <i>Edit Expense</i> displays the <i>Subcontractor Expense</i> screen (see article, <a href="#">Subcontractor Auto Expenses</a> ). This screen will allow the user to edit the selected auto-expense, or to create other auto-expenses for the same opportunity service.
Delete Expense option	<p>Available in the <i>More</i> menu, <i>Delete Expense</i> option is only available for opportunity services that have already had one or more vendor auto-expenses defined. Selecting <i>Delete Expense</i> displays the confirmation dialog shown to the right. If the user clicks the <i>Confirm</i> button, the selected auto-expense is deleted. If the user clicks the <i>Cancel</i> button, the deletion is canceled.</p> 
Add Auto Expense option	Available in the <i>Bulk Actions</i> menu. This option affects all line items whose checkbox is checked. Selecting this option displays the <i>Subcontractor Expense</i> screen (see article, <a href="#">Subcontractor Auto Expenses</a> ). This screen will allow the user to add one or more auto-expenses simultaneously to the selected opportunity services.
Delete option	<p>Available in the <i>Bulk Actions</i> menu. This option only affects line items whose checkbox is checked. Selecting this item displays the confirmation dialog shown to the right. If the user clicks the <i>Confirm</i> button, the selected auto-expense items are deleted. If the user clicks the <i>Cancel</i> button, the deletion is canceled.</p>  <p>If some of the selected opportunity services do not have auto expense defined, Aspire adds a warning notification to the confirmation dialog.</p>
