# Instant on-demand digital risk audits with Darkbeam Horizon

## Premium Digital Risk Intelligence

Discover the critical component that's missing from your cyber defence kit.

Gain full visibility and control of your brand's security status in seconds with Darkbeam's new Horizon SaaS platform and API feed.

Assess threats to and from your third-parties with Horizon's on-demand Cyber IQ (Cyber Intelligence Quotient) audits as well as create Watchlists to alert you to any changes in your external risk.

We analyse, at scale, publicly available information derived from proprietary testing to help you make informed business decisions and prevent future cyber attacks.

Explore strategic insights through expertly dissected data, identify risk, receive precise advice and total clarity through top-tier partners and providers.

44% of companies experienced a significant data breach through a third-party vendor.

## Insight before incidents

Our expert knowledge and up-to-date threat intelligence of digital exposure helps us deliver world-class digital security solutions.

Darkbeam offers an agile and scalable solution that helps you drive down costs; reducing the likelihood of an expensive cyber incident – saving time and money.

## See yourself through the eyes of a hacker

Close the security gaps before they can be exploited by hackers.

Using non-intrusive methodology Darkbeam can give you instant visibility of your external digital risks, including those within your supply chain.

Our industry-leading platform and analyst services provide crucial 'before the storm' reporting so you have a clear, informed vision of your current security status and how to enhance it.

The result? Less risk, greater reassurance and reduced financial and operational costs.

- Identify weak spots in your cyber ecosystem
- Defend internal resources against external threats
- Avoid domain takeovers and account compromise
- Secure third-party services
- Protect your brand reputation
- Partner with a world-class digital risk protection provider

### A critical component in your cyber defence kit

#### See the bigger picture, in seconds

Maximise your defence with strategic insights. In seconds understand the digital risk within your cyber landscape.

#### Tangible, actionable intelligence

Use our fully automated platform to manage your organisation's third-party risk profile with ease and efficiency.

#### Let us help you remediate

Based on automatic reporting through Horizon, our analysts assess and identify weak spots and vulnerabilities, and then advise on the most impactful ways to resolve them.

Accelerate your Digital Risk Protection strategy with a free 90-day trial of Horizon.
