IQON

IQON está formado por cajas de hormigón apiladas en 32 pisos. Cada caja se rota para proporcionar la mejor vista posible y crear terrazas al aire libre para cada apartamento. En la base del edificio hay una serie de escalones que forman una plaza abierta al público que activa comerciales los cuales permiten la circulación de público conectándolo también a los vestíbulos de la construcción. En el área de las terrazas escalonadas hay una piscina de entrenamiento integrada, que ofrece a los residentes un lugar para relajarse con vista a la ciudad. Cada piso cuenta con terrazas en las fachadas norte y sur, que no sólo permiten la vista de toda la ciudad, sino que también ofrecen la oportunidad de ventilación cruzada y una sensación de libertad visual.
