Business Continuity & Resiliency

iGrafx®

UNDERSTANDING BUSINESS CRITICAL PROCESSES FOR CONTINUITY AND RESILIENCY PLANNING.

iGrafx provides the ability to Identify and prioritize business critical processes, systems, personnel, and suppliers to ensure your business continues to deliver on customer expectations during times of crisis or disruption. Make informed, strategic decisions for your organization based on the actual impact and criticality of the processes that make up your business.

Easy Access to Process Knowledge

With cloud-based access, process knowledge is available wherever your workforce may be.

Identify and Mitigate Risk and Ensure Continuity

Locate potential resiliency gaps, reduce costly manual processes, and develop controls and continuity plans for potential service disruption impacts.

Clear Understanding of Critical Resources

Provide direct relationships between business-critical processes and the roles, capabilities, systems, and suppliers needed to ensure they are executed effectively

Continue to Meet Customer Expectations

Gain understanding of which busines processes most directly impact your company's ability to service or support your customers.

Leverage KPIs to Effectively Monitor Business Performance

See real-time process behavior and relationships and react with speed to ensure continuity and deliver optimum performance

Drive Business Performance:

Align operations to business strategy, improve operational resiliency, reduce potential compliance violations, enhance customer experience, and increase the accuracy of business metrics.

Business Transformation:

iGrafx Business Transformation solutions empower organizations to achieve maximum performance today, transform for the digital world of tomorrow, and define continuity and resiliency plans for whatever disruptions may come. This is done through the capture, communication, and alignment of strategy, people, processes, and technology, uniting the entire organization around delivering business value.

Business Continuity & Resiliency

WHAT WE PROVIDE

Our team will work to coach and train your staff in the three stages for BC&R readiness. These stages include:

Identify

- Perform a Business Impact Analysis to gather data and identify Critical processes and related information.
- Enter the objects and relationships in iGrafx
- Use the Identify stage reports delivered with this solution to help identify gaps and ensure relatively complete object creation with direct relationships.

Evaluate

- Identify issues in the data, including:
- Single Source (single point-of-failure) issues
- Gaps that exist with "indirect" relationships
- Manage and govern the content, ensuring that it is complete and maintained, so that you are ready for a BCR event.

Engage

- Identify backups for impacted processes and resources
- Ensure the proper resources have access to needed documentation
- Understand 'higher order' or future impacts like what changing regulations due to the event will mean.

Looking for a Jump Start with iGrafx?

Leverage our expertise for a higher ROI. Our training and consulting services can help you apply the power of iGrafx even faster. For more information, please visit iGrafx.com/services.

iGrafx works with the Global 2000 with a focus on large, complex challenges, high degree of regulatory requirements, and the need for continuous business improvement.
