# About us

Thank you for choosing Envirotech Education. We are delighted to provide you with our educational services, and we are privileged to lead and share your education journey. Envirotech was founded with the view that tomorrow's leaders and professionals must be equipped with strong values and industry skills that connect the environment and the use of technology across all sectors. These core educational values are embedded into our name and professional programs.

We will make all efforts to empower you with these same values, and to support the development of knowledge and skills in your chosen industry. Furthermore, we will incorporate fundamental ethics, the ability to see the world with green eyes, and the development of new measurements to assess what you see, and thus act with accountable professionalism."

Our goal is to connect with you on multiple levels: educational, professional, social, ethical, ecological, and hopefully, spiritual.

We are passionate about making a difference in the world and believe this is possible by combining education, entrepreneurship, innovation, sustainability and faith in our ability to be the change we want to see in the world by placing the relationship with the natural environment into our daily operations. We want to share this passion with you.

We believe the connection with nature - the environment, via our educational and professional development journey, will encourage you to develop new skill sets, values, thoughts and beliefs that will provide you with the required tools. We are passionate about making a difference in the world and we believe this is possible by combining education, entrepreneurship, innovation, sustainability, and faith in our ability to be the change we want to see in the world. We strive to do this by placing the relationship with the natural environment into our daily operations. We want to share this passion with you.

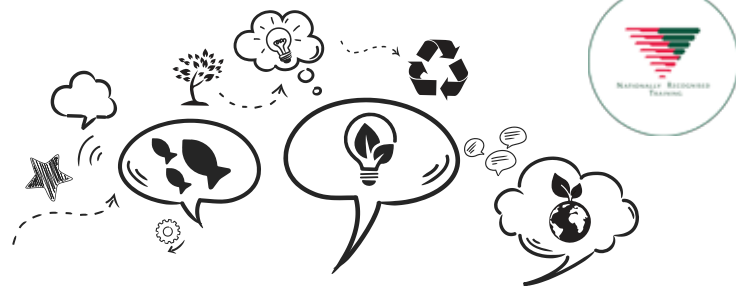

We believe the connection with the natural environment, via our educational and professional development journey, will encourage you to develop new skill sets, values, thoughts and beliefs, all of which will provide you with the necessary tools to be a leader in a constantly changing world.

We embedded sustainability into our programs together with entrepreneurship and innovation in order to enable our students to manifest positive changes across all professions, and to develop networks for practical leadership across multi-disciplinary programs.

We are excited to welcome you to our growing Envirotech family, and we are grateful that you have chosen to join the Envirotech Education group on your own professional development journey.

## 2019 Excellence Awards

### Winners of Queensland Premier Export Award for Sustainability

On the 10th of October, we were nominated as finalists in the Premier of Queensland's Export Awards 2019 on behalf of the Export Council of Australia and the Trade and Investment Queensland (TIQ).

### Finalists of the Tom Burns Award for Women in International Business

We are proud to have been also nominated as finalists for the Tom Burns Award for Women in International Business.

### 57th Australian Export Awards National

Envirotech Education is a finalist for the Australian Export Awards national program that recognises and honours Australian companies engaged in international business who have achieved sustainable growth through innovation and commitment.

The Awards measure Envirotech against their peers based on the strength of their international growth, marketing and financial strategies.

The several awards we receive yearly, represents our efforts in developing our Environmental, Sustainability and Marine courses, with an amazing team of environmental consultants and specialists.

## 2018 Excellence Awards

### International Ocean Day in Brazil

Envirotech Education presented on international Ocean day in Brazil and also took part as panellists in the opening of the Blue Economy project, powered by the World Bank. The forum was an outstanding opportunity to endorse the validity of our extensive efforts with this VET reform, we received the only MOU signed on this day.

### Envirotech Education wins Gold Coast Excellence Mayor's Innovation Award

Envirotech Team received the Gold Coast Mayor's Innovation Award at the Gold Coast Business Excellence Awards July 2018. Envirotech was the only training organisation to be honoured at the event.

## 2017 Excellence Awards

### Envirotech's student wins International Education & Training (IET) VET Students of the Year Award

Gold Coast based Envirotech Education student, Simon Witt, won the Queensland International Education & Training (IET) VET Student of the Year Award. This is recognition of not only Mr. Witt's efforts but also the great education opportunities provided by the Gold Coast's exciting Vocational Education and Training (VET) sector.

# General Entry Requirements

## English Language Literacy

Proof of minimum English level testing score suited to the correct level of study.

Envirotech English placement test is available for applicants from countries of low migration risk. Students with a lower level of English proficiency will be offered to enrol into our ELICOS course to improve their English level and develop professional English communications skills.

## Laptop Computer

It is a condition of your enrolment that you have a suitable laptop computer to begin your course (standard courses: a suitable laptop with Microsoft 2010).

Students who arrive to induction without a laptop, will be provided with a payment plan for the purchase of a computer during the induction for the best market price suitable laptop.
