

EMPOWER YOUR CAREGIVERS TO FOCUS ON OUTCOMES, NOT CONNECTIVITY

7SIGNAL®

**7SIGNAL BRIDGES THIS GAP BETWEEN CAREGIVERS
AND IT WITH WIRELESS NETWORK MONITORING
SOLUTIONS. 55% OF HOSPITALS SPEND UP TO 500
HOURS PER YEAR ON WI-FI MAINTENANCE.**

7SIGNAL helps you keep your ecosystem connected so checkins; medical data collection and treatment plan coordination is unaffected

Fast, reliable Wi-Fi is critical to delivering great patient care. Hospitals that can troubleshoot, pinpoint and resolve Wi-Fi issues quickly empower caregivers to focus on patient outcomes, not connectivity.

WHY 7SIGNAL?

Patient outcomes depend on patient information capture and delivery between physicians, nurses and other caregivers on treatments. 7SIGNAL continuously monitors the Wi-Fi network and medical devices and sends notifications before you get a helpdesk call.

Disconnected devices cause patient safety issues. Going back to manual forms during outages or data corruption issues with enterprise devices can cause patient safety issues. Correct data is especially critical during care transitions where 80% of all serious medical errors occur. 7SIGNAL is installed on the client and acts as a continuously running utility to solve connection issues.

Patient satisfaction and the correlation to connectivity. Each patient within a hospital has on average 3-6 devices attached to them. If it takes a nurse approximately 5-15 minutes to visit each patient and check all vital signs, he or she can only visit approximately 4-12 patients per hour. 7SIGNAL is the solution "Connected Hospitals" depend on for connectivity.

SOLVE WI-FI PROBLEMS WITH 7SIGNAL

“

7SIGNAL MAKES SOLVING
WI-FI CHALLENGES ON THE
CLIENT OR RADIO LIKE
CHILD'S PLAY.

WIRELESS ENGINEER
ONE OF NATIONS TOP NOT-
FOR-PROFIT HEALTH PROVIDER

“

7SIGNAL IS THE BEST TOOL TO USE
WHEN IT COMES TO GETTING REALLY
GRANULAR, AND LOOKING AT WHAT'S
GOING ON IN THE RF AND ON THE CLIENT.

SENIOR WIRELESS
NETWORK ENGINEER
