Bonded Acoustical Cotton Hanging Baffles

## Echo Eliminator Hanging Acoustical Baffles

For excellent acoustical control in large open spaces, Echo Eliminator baffles offer outstanding control across a wide range of frequencies, as well as design flexibility. This product solves challenging acoustical problems in concert halls, auditoriums, gymnasiums, meeting halls, retail spaces and more, to aid in improving sound quality, especially for speech articulation.

Echo Eliminator baffles combine noise and reverberation reduction with architectural elements to add beauty and interest to a space.
