

Echo Eliminator - Bass Buster

Bonded Acoustical Cotton Low Frequency Absorber Panels

FEATURES & BENEFITS

- Low Frequency High Performance
- Durable
- User Friendly
- May contribute toward LEED® Credits

MATERIAL

1.5 lb. density, recycled bonded acoustical cotton fiber

FEATURES

Exceptionally good low frequency absorption. Ideal behind acoustical fabric, perforated or slotted panel surfaces

APPLICATIONS

Industrial, architectural or pro audio applications. Machinery and mechanical rooms. For harsh noisy environments that require high performance, low frequency noise reduction. Above acoustical ceiling grid systems. User friendly alternative to glass fiber insulations

THICKNESS

4"

SIZES

24" x 48" (Special sizes available upon request based on minimum quantities).

FLAMMABILITY

Class A Fire Rated per ASTM E84

COLOR

Gray

INSTALLATION

Adhesive, mechanical clips, friction fit
