EXPERIENCE THE JOY OF QUILTING

At AccuQuilt, our mission is to create joy through quilting by providing innovative solutions that make cutting fabric easy, fast, accurate and safe. We believe in the possibility of a good stash, find excellence in our craft and connection with every stitch. We're working to inspire makers everywhere to experience the joy of quilting.

AccuQuilt products include a premiere line of fabric cutting systems. GO!® fabric cutters cut up to six layers of 100% cotton at a time. Plus, over 240 GO! fabric cutting dies have been created for use with the different fabric cutters. A wide range of quilting resources are available to help quilters including GO! Quilt™, a web platform featuring more than 1,700 quilting patterns you can choose from to custom design your next project.

Along with our line of GO! dies, AccuQuilt offers the GO! Qube® Mix & Match Block Sets that come in six sizes and contain eight dies that make 72 blocks. Add our GO! Qube Companion Set – Corners and Angles to expand your block options to 216 block designs!

SETTING TRIANGLE BASICS

- Quilt blocks can be set in straight settings with blocks in horizontal or vertical rows or they can be set in on-point settings with the blocks set at a 45° diagonal. In on-point quilts, setting triangles are the triangles located on the outside edges and corners of the quilt.
- When quilt blocks are set on-point, it often means that the straight of grain is set on the diagonal or bias (i.e., most susceptible to stretching). To stabilize the outer edges of the quilt, it's critical for setting triangles to be cut on the lengthwise grain so the straight of grain is on what will be the two outside edges of the triangles.
- The math to cut setting triangles correctly can be confusing which makes creating on-point quilts somewhat intimidating for quilters at any skill level.
- AccuQuilt GO! Setting Triangle dies are specially designed to accurately cut multiple setting triangles—both side and corner—on the lengthwise grain in one pass through the cutter. No math required! Six sizes available—4", 6", 8", 9", 10" & 12" finished.
