

Swagelok Southeast Texas

Services

- Onsite Field Engineering Services
- Safety Training & Educational Courses
- Design Optimization & Standardization
- Construction & Turnaround Support
- Grab Sample & Sample System Evaluation & Advisory
- Compressed Gas Leak Detection & Energy Emissions Surveys
- Hose Advisory Services
- Vendor Managed Inventory
- Kitting
- Tool & Equipment Rental

Hose & Flexible Tubing

- On Demand Hose Assembly available
- Available in hose and tubing sizes 1/8 to 2 in. and 3 to 50 mm; range of fractional and metric end connections
- Standard & Custom Lengths with multiple end connection combinations available
- Types: Metal, PTFE, PFA, Vinyl Nylon Polyethylene, and Rubber Core Materials; General-Purpose, High-Purity, Vacuum Hose and Flexible Tubing

Tube and General Industrial Fittings

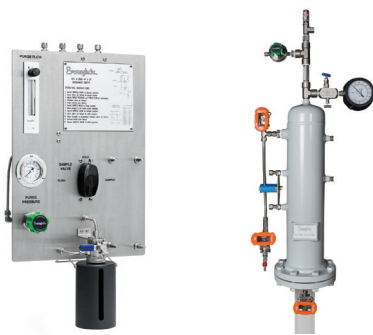

- Available in sizes 1/16 to 2 in. And 2 to 50 mm
- Wide variety of materials (special alloys) and configurations
- NPT, ISO/BSP, AN/JIC and SAE pipe threads
- Types – Pipe, Weld, Vacuum, Flange and High-Purity

Medium- and High-Pressure Fittings, Valves & Tubing

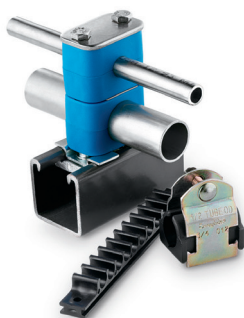

- 2507 – Special Alloy Dual Ferrule Design – pressure rated to 15k psig
- FK – Dual Ferrule High-Pressure Design – pressure rated to 20k psig
- IPT available in special alloys – 2507, 625
 - Cone & Thread Series – pressure rated up to 30k and 60k psig
- Tubing up to 60k psig

Assembly Solutions

- Fabrication services for turn-key assemblies, sub-assemblies and assembly of panels and/or skids
 - Grab Sample Modules
 - Mechanical Seal Support Systems

Tubing, Tools & Accessories

- Stocking tubing to handle pressures up to 60k psig
- Stocking 316SS and 2507 materials from sizes 1/16 to 2 in. OD and .020 to .188 wall thickness
- Special Alloys
- Tube benders and hydraulic swaging units, gap inspection gauges and tubing support systems
- Leak detectors, lubricants and sealants

Other: Sample Cylinders, Quick-Connects & Filters

- Cylinder Types: Sampling, Transportation – Compliant (DOT). Single and Double-Ended
 - Sizes from 10-3785 cm³ (1 gal)
 - 304L, 316, 316L and Alloy 400
 - PTFE Lined, Sulfinert Coated
- Quick-Connect Types: Instrumentation, Full-Flow, Miniature, PTFE-Sealed
 - Wide variety of configurations and end connections
 - Single-End Shutoff, Double-End Shutoff
- Filter Types: Coalescing, Particulate, High-Purity
 - Available for liquid and gas service
 - Welded, inline and tee-type configurations

Valves

- Instrument and Process Valves – Ball, Needle, Check, Relief, Plug, Metering, Toggle, Single Block and Bleed, Double Block and Bleed and Manifold
- Large selection of sizes (up to 2 in. and 50mm) and materials
- Relief valve setting and automated ball valve assemblies

Regulators, Pressure Gauges & Measurement Devices

- Regulators – Diaphragm and Piston Sensing, Pressure Reducing, Back Pressure, Ultrahigh-Purity and Modular
- Measurement Devices – Vertical flow sensors, Variable area flowmeters, Thermometers and thermowells
- Gauge Types – Clean, Dry Air, ECE R110-Approved, Industrial, Process, Panel-Builder, Positionable
