YOUR CHALLENGES

CYBERSECURITY

Securing issues are on the rise.

COSTS

Costs are constantly escalating & funding is declining.

ENROLLMENT

Expanding enrollment & in some cases, not enough enrollment.

FERPA

Ensuring FERPA guidelines are met – (Family Educational Rights & Privacy Act)

> "They're truly invested in what we're doing & they make an impact in what we're doing. They're always asking us what they can do to help us even more. Bottom line, they've helped us tons with saving"

— SHAROL HAWLEY, DIRECTOR OF PURCHASING & SUPPLY, GRAND RAPIDS PUBLIC SCHOOLS

OUR SOLUTIONS

ENTERPRISE CONTENT MANAGEMENT

Ensure all assignments, student records & forms are all securely scanned into an enterprise content management system for compliance.

INFORMATION WORKFLOW

Software to manage your fleet & route student information to appropriate repositories (Example: Blackboard, Sharepoint & other systems.) We also have software for monitoring, managing & charging back various departments, guests & students (if applicable). This will help with productivity & reduction of manual processes. Such examples could be: student information, class assignments & test results.

COLLABORATION

Interactive Whiteboards for collaboration within the classroom to showcase assignments, write on them & share. It also helps keep students interactive with collaboration.

PROTEAM GRAPHICS COLOR PRINTING

Schools typically have a print shop & graphics department where they print their own materials. Materials could include: Course books, assignments, syllabus', report cards, student records, forms, handbooks & more. Having a robust production color multifunctional printer in house is extremely helpful & cost effective when its compared to outsourcing.

MOBILE PRINTING

The use of iPads & smartphones are on the rise in education. Being able to print assignments, course materials, educational reports & booklets is critical. Having a device that is networked & allows for mobile printing & access points for wireless is highly recommended.
