ADAPTABLE SOLUTIONS

FOR LEARNING WITHOUT BOUNDARIES

VALUE FOR REAL-LIFE DEMANDS

At Artcobell, our **only** business is [school furniture](#).

- » We're passionate about designing and building school furniture that supports teachers and students now and into the future. [Our products stand the test of time](#): since 1965, we have consistently produced high value school furniture that holds up to the real-life adventures of day-to-day activity in the classroom and throughout the school.
- » We're **Texas-based, USA made**, and because we're nimble and domestic, we can react quickly to your needs with just-in-time production that is ready to go when you place your order.

Our furniture is stringently tested to meet all the needs of **dynamic, active learning environments**. Everything we make meets or exceeds industry best BIFMA furniture standards and comes with SCS Indoor Advantage Gold IAQ certification. All is backed by our limited lifetime warranty against any manufacturing defects.

Our focus on local suppliers keeps our carbon footprint lower and gives us a reliable source of raw materials, allowing us to offer **competitive pricing** and the **shortest lead times** in the industry. Our full vertical integration assures we are not dependent on an overseas supply chain. **Controlling our manufacturing destiny guarantees quality, lead times, and the customers' peace of mind.**

An [Artcobell dealer near you](#) is dedicated to making your projects a success, offering project management from design to install and through the first day of school. We work with our dealer network to be:

- » flexible and responsive: uniquely organized to provide personalized solutions and **respond to your needs** quickly and creatively.
- » consistent and reliable: delivering what you need when you need it.
- » trained problem solvers: providing the tools to help schools navigate the demands of selecting the right products to meet today's [learning strategies](#).

TOOLS FOR TEACHING AND LEARNING

[Our products](#) are designed and built based on input from our customers. We listen to teachers and students, administrators and maintenance people.

- » Our promise is to provide solutions to support the teaching and learning today and into the future. Furniture for every educational and curriculum need to enhance Flexible, Collaborative, Personalized and Active environments.
- » Our Learning Environments Leader, a tenured educator/administrator counsels and guides schools in connecting our broad line of solutions to their specific educational needs.

Artcobell offers complete solutions across a range of products: [student desks](#), [tables](#), [seating](#), [soft seating](#), [storage](#) and [more](#).

Comfort is a hallmark of our ergonomically-designed [seating line](#), whether it is traditional poly shell seating solutions like NXT MOV, Alphabet, or Discover, adaptable seating like [MOV stools](#) or [rockers](#) for students who like to wiggle, configurable options like [Arc](#) from our new [soft seating](#) line.

Configurability drives the design of our [desks](#) and [tables](#) – allowing teachers and students to build classrooms, from floor to standing height, however and wherever they want.

Creativity can be enabled with extra-heavy-duty [maker space cabinets](#) and [tables](#) that are designed to foster exploration with ample workspace and plenty of room to store supplies and equipment.

Coordinate materials, supplies, and space. [Storage solutions](#) are built for mobility, allowing users to configure each space according to needs for access, security, and flexibility.

Equalis Group awarded Contract #EQ-052920-01B to Artcobell. This publicly-procured contract vehicle is available to schools, higher ed institutions, and local governments nationwide.
