

Discover Four Leg Swivel Stool

Discover D-Series Four Leg Swivel Stool is available with the "A" and "A+" shell size and a 25" - 33" height adjustment range.

Shell

Shell is one-piece, injection-molded polypropylene with anti-static additive. Color is dispersed across the polypropylene for an even appearance. Enhanced waterfall front edge and biometric design allows comfortable seating. Contoured shell geometry allows rear facing seating position. Fifteen integrated wrap around ribs are provided for shell strength. Both sides of the shell are textured and constructed with a handle in the upper portion of the shell with smooth edges for ease when carrying. Shell is permanently attached to the frame with six non-load bearing steel rivets.

Frame

Upper frame is constructed of 1 $\frac{1}{8}$ " 18-gauge tubular steel welded to a 3/16" steel plate, a 12-gauge steel swivel plate, and two 16-gauge die formed seat braces punched for concealed rivets. Foot rest of 3/4" 18-gauge tubular steel is welded to the outside of legs. Upper frame including foot rest is available in nickel chrome or powder coat finish; completed after welding for improved aesthetics. Lower frame (inserts) is made of 18-gauge tubular steel in nickel chrome and receive Phillips locking adjustment bolts in 1" increments. Leveling capability of 1/8" to adjust for uneven floors.

Glides

Standard with nylon swivel glides. Glides are secured to the leg tube with an internal star clip and swivel 32 degrees. Glide options are steel, non-skid, felt (with a replaceable cap) and boot glides to accommodate a variety of flooring types. Non-skid glide is a soft rubbery base material made of elastomer/rubber/TPR. Boot glides are made of a non-skid rubber base. Steel glide is the best selection for carpeted floors. Nylon is a good general purpose glide. Recommend felt glides be inspected annually to ensure debris does not build up.

Compliance

- > Rated for use up to 250lbs.
- > Indoor Advantage™ Gold. Indoor air quality certified to SCS-EC10.3-2014
- > Tested to applicable ANSI/BIFMA Furniture Standards
