transform learning

# design matters

artcobell

Artcobell is excited to offer a series of professional development hands-on, interactive workshops to support your purchase of artcobell furniture

*Presented by Patricia Cadigan  
Vice President of Learning Environments, M.Ed.*

## Objectives

- ✓ Review current research in relation to classroom design and the impact on student achievement and engagement
- ✓ Collaborate in teams to design classrooms to match the learning objectives and activities
- ✓ Explore examples of various instructional strategies, blended learning, focus instruction, and station rotation to incorporate with flexible furniture

## Customized to meet your communities needs

- ✓ Hands-on collaborative workshops
- ✓ Data driven / Evidence / Research based
- ✓ Small group (35 or less) or Trainer of Trainer model
- ✓ Walk away with strategies to implement in the classroom the next day

## How can furniture support your vision?

- ✓ Use the furniture as a tool to enhance classroom activities
- ✓ Create learning zones within the classroom to differentiate learning activities
- ✓ Flexible seating allows students to have ownership within the classroom
