Backup & Archive

probax.io/dropbox

Effortless protection of your client's Dropbox data

HIGHLIGHTS

SIMPLICITY

With a focus on simplicity, Probax brings your Dropbox data into a single management portal alongside ShadowProtect, Veeam & FTP backups. Data transfer is seamless & automatic from Dropbox to the Probax cloud without needing to upload any data from client sites.

SECURITY

From the smallest workgroup to large enterprise, your business can rely on Probax to protect your customers' data and ensure files and folders can be quickly and easily restored.

SCALABILITY

Extend your organisation's retention of critical & historical data beyond the 120-day limit in Dropbox. Set up and modify archival schedules that fit both your RPO & budgetary requirements.

OVERVIEW

Probax's integration for Dropbox adds backup, archival and rapid ransomware recovery capabilities to the popular cloud storage and collaboration solution for businesses.

Retain customer data as secure, air-gapped restore points according to a schedule and criteria you choose. Data is highly accessible and ready to be restored back to your client's Dropbox account.

Support for all Dropbox plans

Dropbox

Dropbox Business

- Backup & archive critical Dropbox data
- Fast ransomware recovery
- Simple per-user pricing model
- Seamless setup in your multi-tenanted portal

"Single pane of glass management, setup within minutes and zero maintenance for the MSP.

This is the 'set and forget' Dropbox backup and archival solution we've been waiting for!"

*- Andrew Holding, Director at **Initiative IT***
