### 2. Integrate Trint into your content workflow

*Leverage Zapier to keep your team **connected** and **aligned***

#### Connect with Trint!

##### Zapier

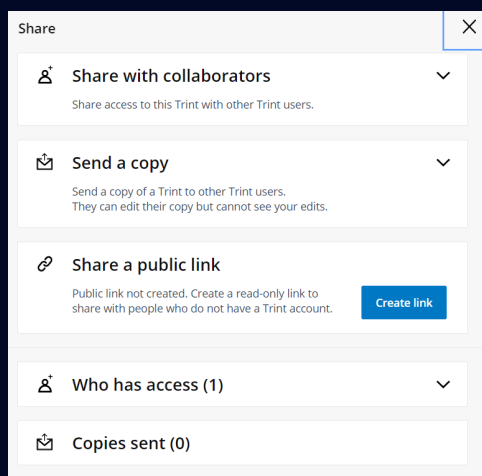

With connections called Zaps, set up in minutes with no coding, you can automate your transcription process. [Zapier](#) can automatically trigger workflows in other apps whenever new transcripts are ready in Trint. Or you can upload a file for transcription in Trint whenever trigger events happen in the other apps you use most. [Find out more](#)

Take a look at Trint's pre-made Zaps:
