trint

Gather quotes from all your transcripts in one place
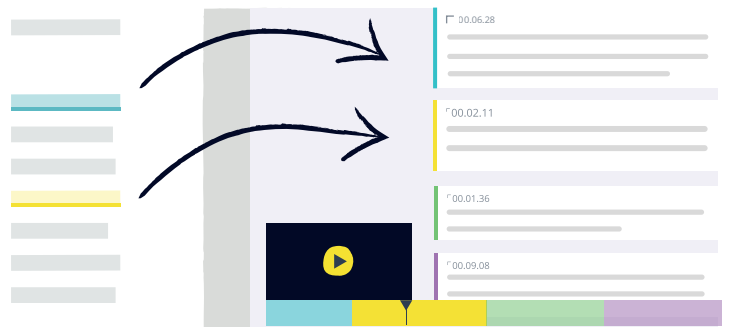

See it. Hear it. Write it. All in Trint.

Your Story, all in one place

Pull together all your time-coded quotes and key moments to keep workflows moving, whether you're laying out ideas, drafting and scripting or cutting videos. Get to production faster with Trint.
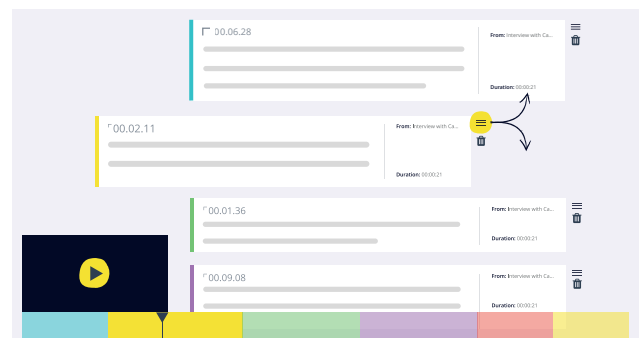

1. Gather your quotes

Upload your files to Trint and start highlighting the key soundbites that tell your Story. Hit *Add to Story*, choose your *highlights* or *selected text* and create your Story.

**Time codes and Trint sources are automatically carried over!**

2. Start organizing your quotes

Head over to your Story to start organizing your content. *Drag and drop* your quotes into place using the button to the right with three lines.
3. Build your Story

Click *Add A Block* to add headers and text blocks for notes, scripting or talk tracks. Use the *trash* button to remove any sections or quotes you no longer need.
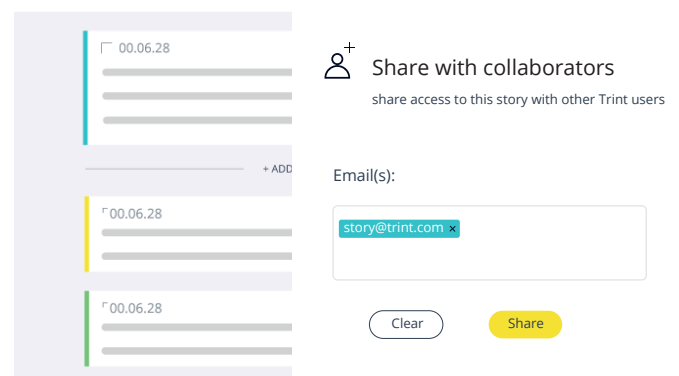

4. Playback

See and hear your Story unfold with *Playback* and follow along with the transcript.

5. Share with collaborators

Share a read-only copy of your Story with your team and keep work moving through production workflows.

6. Export to Word, EDL and XML

Move your Story to onward workflows. *Export* to Word or post-production formats like EDL and XML.

Your Story, all in Trint

Gather, order and script your Stories, all in one place, then easily move work into onward editing tools with our range of Export options. Tell your Story, faster.
