

trint

Transcription has never been so mobile

Carry the power of Trint in your pocket. Record virtual and in-person conversations and phone calls, so you can focus on what you do best.

Simple capture, simple transcription.

1. Record anywhere

It's simple to record conversations, wherever they take place. Trint's iOS app enables simple capture of live conversations and phone calls.

2. Carry the power of Trint with you

Get work done on the go by transcribing, sharing with collaborators or adding to a Workspace – all within the app.

3. Stay safe & secure

Never lose recordings again. Calls and live recordings are immediately saved. Your data is protected by best-in-class encryption.

- ✓ **Call Recording** for phone calls
- ✓ **Live Record** in-person conversations
- ✓ **Markers** to track important moments

- ✓ **Upload phone files**
- ✓ **Transcribe conversations** within the app
