

NORTH AMERICAN GAS FORUM®

THE LEADING FORUM TO CREATE NATURAL GAS OPPORTUNITIES IN AN ERA OF ENERGY TRANSITION

An International Alliance Of Distinguished Energy Leaders

VIRTUAL EVENT

October 20-22, 2020

A SNAPSHOT OF THE NORTH AMERICAN GAS FORUM

At the North American Gas Forum, we always aim to include a high-level, balanced representation of leaders and industry influencers. We include perspectives from across the spectrum for healthy debate and innovative dialogue discussing the most pressing challenges the industry is facing today. We do this in a Five-Star environment, viewed by many as the top networking functions offered and best in class. This year will be no different. Our virtual sessions, roundtables and lunches will be engaging and continue to encourage solutions and collaboration.

Now is a challenging time, but the natural gas industry will not cease to exist. We believe wholeheartedly in the resilience and importance of the natural gas industry and will continue to play our role in creating the dialogue necessary to continue the growth and forward movement.

5 REASONS WHY THE NORTH AMERICAN GAS FORUM SHOULD BE A PRIORITY EVENT IN YOUR CALENDAR

- **THE LEADING NATURAL GAS FORUM:** Join the decision makers on natural gas - The NAGF is the most impactful event of its kind, happening at the intersection of government, policy and industry and convening leading experts from across the value chain for purposeful dialogue and collaboration.
- **OUTSTANDING PROGRAM:** Learn from an unparalleled line-up of cross-sector experts - the NAGF agenda is carefully curated in collaboration with industry advisors and features insightful panels, roundtable working sessions and keynotes, allowing for focused discussion, strategies and solutions for a balanced approach on energy, environment and economy.
- **A BROADENING OF PERSPECTIVES:** Expose yourself to different points of view - NAGF creates the opposite of an "echo chamber" conversation, with the goal to reach true progress through healthy debate, uniting a group of people who don't necessarily agree, but are willing to engage in dialogue.
- **VALUABLE NETWORKING:** Get first-hand insights and prime opportunities for connection - Attendees of the NAGF have innumerable opportunities to connect with other industry front-runners and prominent leaders, with potential for creating long-term, synergistic partnerships.
- **BUSINESS ADVANTAGE:** Solidify your company's brand and thought leadership position by adding your voice to purposeful and progressive discussions - NAGF is recognized as a highest quality platform and must-attend natural gas event for senior executives.

KEY TOPICS INCLUDE

- 2020 - The Year of Double Black Swan Events - How Will the Industry Rebound?
- Spotlight Dialogue: Upcoming US Elections and the Energy Sector
- Geopolitics and Trade Impacts from Covid19 - Can the World Regain Confidence?
- Investors' Perspectives on Natural Gas and ESG Performance
- Legislative Perspectives
- LNG 2020 - What's New? Financing - Supply - Demand Uncertainties and Opportunities
- Decarbonization Scenarios - Leaders, Laggards and Plans for A New Reality
- Natural Gas - Fuel of the Past, Present or Future?
- Can a Winning Trifecta of Economic Growth - Environmental Sustainability - Technological Innovation be the Answer for Our Energy Future? Is There a Blueprint for a Restart of the Economy?

"Tremendous opportunity to network with industry colleagues on latest trends, regulation, and economic impact."

- **Scott McKay**, VP, Business Unit Manager, North America Oil, Gas & Chemicals, **ABB**

ABOUT ENERGY DIALOGUES LLC

Energy Dialogues LLC is an international alliance of distinguished energy leaders whose focus is on empowering advocacy efforts and creating open dialogue across the energy value chain and its members. We pledge to provide a world-class stage for high-level debate and discussion through exclusive global summits, conferences, fora, and meetings. Energy Dialogues LLC continues to connect the world's elite inner circle of energy professionals to drive tomorrow's sustainable innovations, practices, and commerce.
