## FAQs

### Q. Is Anvyl free to use?

Yes, Anvyl is free for suppliers to manage Purchase Orders from the issuing brand. You can support multiple brands as long as the PO originates from them.

### Q. Who in my organization can I invite to use Anvyl?

Anyone who is supporting the PO which entails finance, customer service, quality and shipping/receiving can have access. There is no limit on who you invite to use Anvyl. The brand will need to confirm the contact you add onto the PO if not already set-up by the brand.

### Q. How is Anvyl going to impact my current workflows?

Anvyl is SOC 2, Type 2 certified, which ensures data security. Your workflows don't need to change as Anvyl operates in email and allows you to log-in to document and view order level details.

### Q. I don't know when production is going to start, what should I put for the start date?

Use your general lead times as a starting point, but when more information is available, you have the ability to update the production start date.

### Q. Where can I as a supplier request a new password?

If you cannot access your account, you can reset your password by clicking the *Forgot your Password?* Link on the login page or can email [support@anvyl.com](mailto:support@anvyl.com).
