Power Generator

Empower your staff to automate, simplify and streamline your business with the Microsoft Power Platform

What is the Power Generator?

A managed service designed to provide you with the insights, controls, skills and assets needed to drive value from Microsoft's low-code Business Applications Power Platform.

We work with your organisation to develop a governance framework, undertake training and provide assets to enable solution makers to fast track their ideas to solutions and take ownership.

Create a new digital business model, achieve faster time to market and increase business agility, by designing innovative applications at speed, liberating your talent and securely unlocking the value of the Microsoft cloud.

On top of that, we offer on-going support to build an app practice with you, develop reusable components, and monitor and manage your apps. Give everyone the ability to create solutions that accelerate business

Empower your users to create value quickly

- Regular end-user training ensuring best practice solution development

- On-demand access to our experts to support your power-users

- Branded components and templates providing beautiful user experience

- Stay current with Power Platform news and updates

Enable your team to build their own apps

Build better solutions faster

- Use our IP, templates and samples to fast track build

- Identify and nurture you power solution makers

- Rapid access to our App Practice to build more complex apps

- Maximize the usage across your apps within the Microsoft ecosystem

Get more done with your Microsoft 365 investment, faster and easier

Manage your risk with smart governance

- Tailored governance recommendations to get the most out of the Power Platform

- Established guard rails to keep confidential data safe

- Review and manage the lifecycle of business-critical solutions

Reduce the burden on IT who are already time-poor.

What's included in Power Generator?
Maximise the ROI of your low-code platform

Get started

Empower your power users

- Quick start training for power-user and admins
- Regular scheduled 'in –a-day' sessions for Power Apps, Power Automate, and Power BI
- Hackathons: company-wide events run by us to generate a wide variety of solutions in your organisation

On-going value

Build better apps

- Help your power users solve problems more quickly with monthly solution updates from our **App Practice** team; reusable components, template solutions, starter-kits and pre-built apps
- Exclusive thought leadership, training guides and modules
- Access to our App Build service:
  - To 'productionise' prototypes built by your power users
  - To engage on-demand through our project evaluation service: we'll review, assess and advise on candidate Power App projects
  - Consolidate multiple requests to avoid duplicate budget spent
- Run by our team, or jointly with your IT Service Owner

Run with confidence

Establish a governance framework

- Work with your IT and business stakeholders to develop and implement guidelines, based on a best practice framework, to protect your organisation without limiting power users from creating their own business-improvement apps
- Platform review: initial review of activity and knowledge in your organisation, to help plan and direct where to focus effort and achieve the best value
- Establishing the App Practice for on-going success

Proactive governance

- Regular review of the Power Platform Center of Excellence dashboard to monitor usage and adoption
- Proactive engagement with successful citizen developers to apply the right governance at the right times and appropriate levels of support
- Marketing support to help your users to promote their apps to increase the return on investment from their efforts
- Regular reviews of your Microsoft 365 investment to help you (and your business stakeholders) identify opportunities to increase return from your licensing

On-demand support

- If something goes wrong, connect with our experienced consultants to quickly resolve problems
- Understand your organisation's support needs with monthly reports
- Timely support backed by Service Level Agreements

Why Engage Squared?

Engage Squared is a Microsoft Gold Partner, specialising in bringing people and technology together. We work in close partnership with our clients and use the tools in Office 365 to enable you to collaborate more efficiently and effectively.
