

# Toad® by Quest® Subscription Products

Same great Toad features available in an affordable model

For over 20 years, Toad® by Quest® has been the most effective and advanced premier productivity solution for database and data professionals.

Toad was one of the first Oracle integrated development environments (IDEs) of its kind. Written in 1995 by a developer for developers as a freeware tool, Toad for Oracle and our family of other Toad products are now used by more than 3 million people worldwide, including developers, database administrators (DBAs), analysts, managers, support engineers and many others. Toad has an ardent following of extremely loyal users and their enthusiasm is apparent at trade shows and in countless Toad user groups around the world.

## TOAD FOR ORACLE BASE EDITION SUBSCRIPTION

Toad for Oracle Base Edition Subscription offers a wide range of features for building and maintaining database programs, including PL/SQL and SQL scripts. It includes a robust, integrated debugging suite and utPLSQL unit testing so you can incorporate testing into your database development processes easily using an industry standard framework.

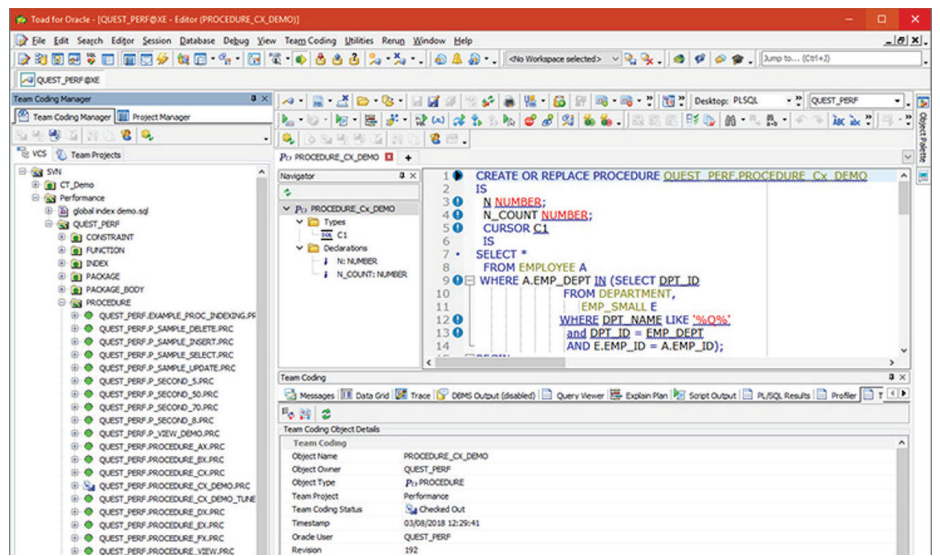

Toad for Oracle Subscription products are priced for individual users for a single year. Individual Oracle DBAs and PL/SQL developers can save time, reduce costs and improve quality using the same fully-featured toolset our enterprise customers use, at a yearly, subscription rate.

Access to all the great Toad features you love in a new affordable subscription model.

### BENEFITS:

- All the great award-winning Toad features you have grown to love
- Access to our world-class support team, Knowledge Base, how-to videos and more
- Quest Auto Update keeps you on the latest version, all the time to ensure you keep current as new desktop security threats are uncovered and addressed in new versions of Toad
- Online License Management enables Toad customers to assign licenses to individuals, keep track of individual usage and reassign unused or under-used licenses as needed to ensure license compliance
- Auto Renew ensures that your Toad for Oracle Subscription will be continuously available to users until such a time as they actively plan for end of use of the product
- Stay informed about ongoing learning events like our Ask Toad series and relevant content
- Leverage a community of millions, including peers and experts in Toad World
- First access to upcoming subscription-only features like persistent settings and more

## TOAD FOR ORACLE PROFESSIONAL EDITION SUBSCRIPTION

Toad for Oracle Professional Edition Subscription gives you all the award-winning functionality of Toad Base Subscription, plus additional features such as data sub-setting and masking, PL/SQL code quality analysis and personal/sensitive data reporting to ensure you can create high quality code with minimum technical debt while protecting personal information.

## TOAD FOR ORACLE PROFESSIONAL EDITION WITH DB ADMIN SUBSCRIPTION

Toad for Oracle Professional Edition with DB Admin Subscription gives you all the functionality of Toad Professional Edition plus all the database administration features from the DB Admin Module such as database monitor, compare and sync multiple schemas, database health check and many more to maximize visibility and productivity across your hybrid Oracle database environment.

This subscription also entitles you to the Sensitive Data Protection Module for database scanning and protection of personal and sensitive data to ensure compliance with GDPR, CCPA and other data privacy regulations.

## TOAD FOR ORACLE XPERT PLUS EDITION SUBSCRIPTION

Toad for Oracle Xpert Plus Edition gives you all the award-winning functionality of Toad Professional Edition with DB Admin Subscription plus SQL Optimizer for Oracle, a unique, patented SQL tuning solution that automatically rewrites poorly executing SQL statements to improve workload performance. This is particularly important for reducing the resource consumption of cloud-based Oracle database workloads to help minimize cloud spend. SQL Optimizer also enables the scanning of problematic SQL in your database environment, the generation and implementation of improved index sets based on a pre-defined workload and can perform impact analysis of workload changes due to different database changes.

This subscription also entitles you to the Sensitive Data Protection Module for database scanning and protection of personal and sensitive data to ensure compliance with GDPR, CCPA and other data privacy regulations.

## ABOUT QUEST

Quest creates software solutions that make the benefits of new technology real in an increasingly complex IT landscape. From database and systems management, to Active Directory and Office 365 management, and cyber security resilience, Quest helps customers solve their next IT challenge now. Quest Software. Where next meets now.
