

Do What Connects You

### Security Services

As a subsidiary of CableLabs, Kyrio leverages CableLabs' rich history in providing high-quality security for DOCSIS® networked devices for 17 years. Today we are on a global mission to make ecosystems safer and more secure, one device at a time.

Kyrio is the foundation of network security for some of the largest networks in the world. We are experts at designing, governing and managing large public key infrastructure (PKI) ecosystems to ensure device identity, brand and manufacturer integrity, and access control for networks supporting millions of connected devices.

### Who We Serve

Network Service Providers | Network Equipment and Device Manufacturers | Software Companies | Industry Trade Associations

### Why Work with Kyrio?

When it comes to securing your products, we know you face several challenges that take you away from creating great products. Kyrio weeds out security vulnerabilities by looking at every aspect of device security, from hardware to deployment to scalability.

- Simplified Certificate Management
- Custom Security Solutions
- Expertise in Securing Large, Complex Ecosystems

### Industries We Serve

- Broadband and Wireless
- Commercial and Industrial IoT
- Medical
- Energy Smartgrid
- Automotive Sub-Systems

- **500M Digital Certificates Issued**
- **Millions of Devices Deployed**

Do What Connects You

### Custom PKI

Kyrio's custom PKI solution is architected to fit your cybersecurity needs and gives you the ability to issue certificates from your own CA root. We understand you need a security solution that fits within your hardware and manufacturing flow. That's why we take care of detailed technical requirements and streamline provisioning and logistics to make securing your ecosystem simple so you can focus on delivering a great product.

### Managed PKI

Kyrio is the preferred security ecosystem provider for several standards organizations so you can get started securing your device right now. Our managed PKI solution gives you the ability to access digital certificates without having to manage the inhouse CA. Kyrio issues and tracks PKI certificates, sends renewal notifications for expiring certificates and provides exceptional customer support.

### Partners:

Kyrio works with the following partners to help streamline your hardware and manufacturing workflows.

Kyrio provides managed PKI solutions for:
