

STARTER

Acidic Presoak

DESCRIPTION

A low pH, orange scented, high foaming detergent for soft touch and touch free washes. This detergent contains small amounts of Ammonium Bifluoride that aid in the removal of road film and windshield eyebrows. It is used as the first step in a 2-step acid-alkaline process in either conveyors or in-bay automatics.

USAGE INSTRUCTIONS

This product should be applied as the first step in a two-step cleaning process. For touch free cleaning apply 100-150:1 (5-9 drops). For friction applications start at a rate of 150-250:1 (3-5 drops). For more difficult cleaning conditions slowly increase strength. Make sure to vehicle is completely rinsed and neutralized before exiting the wash.

FEATURES

- Removes windshield "eyebrows"
- Increased shine to metal and glass
- Improves clean during "tough clean" times
- Biodegradable

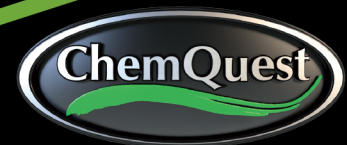

SIZES AVAILABLE

- 5-gallon pails Code: 11-12720-005
- 15-gallon drums Code: 11-12720-015
- 30-gallon drums Code: 11-12720-030
- 55-gallon drums Code: 11-12720-055
