

Service Training A-Series Advanced Engineering

Advanced training:

The main objective of this course is providing our customers with the confidence and knowledge they require to be competent whilst working on SEALPAC equipment. Our course offers a broad understanding of all the machines functions and capabilities and allows our customers to then maximise efficiency on their machines.

Course content:

- Machine Introduction
- Machine Overview
- Understanding the Operator Screen
- Servicing the Linear system
- Servicing the Film system
- Servicing the Sealing Station
- Advanced maintenance of the machine
- Understanding the electrical system
- Understanding the pneumatic system
- Advanced fault finding and analysis
- Understanding Spares Manuals
- Understanding Electrical & Pneumatic drawings

Machines	Delegates	Duration	Time	Fee per person
