

CASE STUDY: LARGE MULTI-NATIONAL FOOD COMPANY

Efficient poultry packing for IQF chicken

Situation

One of the largest food companies in the world needed a solution to pack IQF poultry into bags of 8pcs, which were cut-ups of one whole chicken.

Solution – Cabinplant multihead weighers

Our partner, Cabinplant installed a new line with 8 Multihead Weighers, each weighing the individual chicken parts from the cut-up line. One of each individually quick-frozen product was bundled together into portions. Portioning was based on both weight and count, which resulted in state-of-the-art supply.

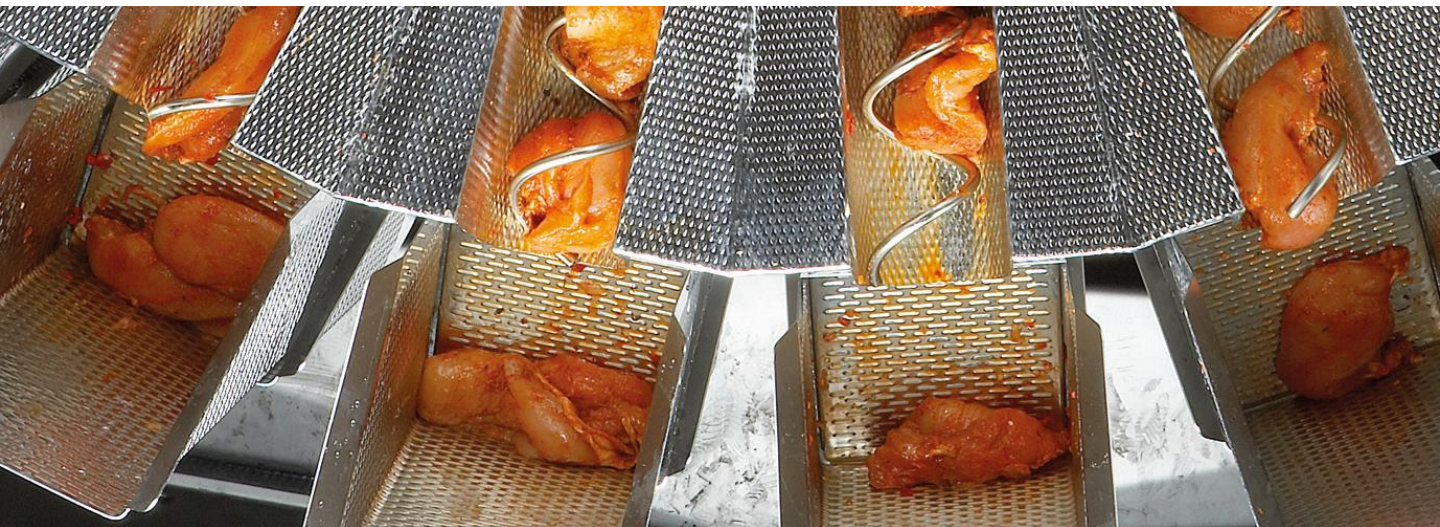

Cabinplant provide flexible packing lines which:

- Can handle up to four simultaneous products
- Have a maximum packing speed of 160 bags/min
- Are ideal for products which rip often rip bags

Results

This customer significantly cut production costs and give-away, as their production line became both more efficient and cost-effective.
