## Ramco takes delivery of RUBB Shelters

The latest stock to arrive at Ramco were 34 containers of RUBB shelters. To prepare for their arrival a 100 tonne telescopic handler was hired, enabling the containers to be swiftly unloaded. Despite a detailed packing list (from 2004!) a complete inventory check was undertaken to ensure stock accuracy and condition.

The task consists of both used and unused shelters measuring either 20 x 24 metres or 23 x 36 metres, which can be used as workshops; hangars; canteens; accommodation etc. They are now being placed into the market via the Ramco website and several offers have already been received. To the delight of the declaring unit, the entire consignment was collected on time and within Contract KPI's.
