

Blue Diamond Sustainable Ice Melt

- Blue Diamond is one of the fastest acting ice melters available, it is designed for quick and powerful removal of snow and ice melting at temperatures as low as -18 °C
- Blue Diamond is colored blue for effective and consistent application and is designed to have increased traction control and corrosion inhibitors for increased safety
- Blue Diamond is coated with Magnesium Chloride for enhanced melting power, environmental sustainability and safer removal of ice and snow

- Blue Diamond can be applied at approximately 1lb to 4.5lb per 540 sqft
- When spread evenly over an icy surface Blue Diamond's quick melting action helps improve the removal of ice and snow buildup
- Do not use excessively in a concentrated area and reseal unused packaging to prevent hardening of the product during storage
