

# New Angle Beveling: Shaped Glass

*New Angle Beveling is a glass manufacturer and serves commercial and residential glass fabricators in Pennsylvania, New York, Delaware, New Jersey, Maryland, and Ohio*

*Every project is different – some have unique dimensions or limitations, while others feature one-of-a-kind visual elements. Shaped glass can elevate a project – from large custom entrances to mirrors and frames – or improve functionality.*

**At New Angle Beveling, we can cut glass into almost any shape to meet the specific needs of your project. In addition, we can cut custom shapes within a pane of glass.**

## Glass Shaping and Finishing

*Squares*

*Rectangles*

*Triangles*
