

Products for the Petroleum Industry

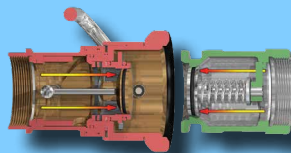

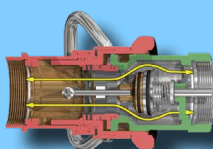

Dixon Bayco

Dry Disconnects and Breakaways

Dry disconnect couplings are designed for a quick and spill free connection/disconnection of hoses and pipelines when transferring expensive, hazardous products.

- Economical - no loss or spillage of liquids at connection or disconnection
- Time saving - no need to drain hoses or pipe systems
- Safe and reliable due to rugged construction - the valve cannot be opened until the unit is coupled

Safe, Quality Hose Assemblies

We stock 1-3/8" fuel hose! With in-house fabrication, crimping and welding facilities, we offer a variety of reliable hoses for your petroleum and chemical applications such as:

- In-Plant Transfer Hoses
- Tank Truck Hoses
- Rail Car Loading/Unloading Hoses
- Steam Hoses
- Drop Hoses
- Water Hoses

Working Pressures

- Aluminum: 230 PSI up to 4"
- Brass/Gunmetal: 230 PSI up to 4"
- Stainless Steel: 360 PSI

Optional Seals

- EPDM
- NBR - nitrile
- FFPM
- FKM

**Reliably
Rugged
Construction**

- Fuel Probes
- Dust Caps
- Adapters
- Drop & Vapor Elbows
- Cam & Groove
- Air Relief Valves
- Nozzles
- Overflow Detection
- Butterfly Valves

Product Lines to
Power Your Performance

Drop Hose Kuriyama of America, Inc.

General Applications: Tank truck gravity fuel transfer

Construction: Specially blended nitrile (NBR) rubber tube with polyester fabric reinforcement, rigid PVC helix and embedded grounding wire.

Service Temperature: -10°F to 150° F

Features & Advantages: Designed to handle gasoline, diesel, ethanol and biodiesel with high tensile strength reinforcement & lighter weight than conventional rubber drop hoses.

Fill-Rite® Pumps

Fill-Rite® DC powered pumps provide the flexibility and power to handle even your most difficult applications. DC power means mobility. Whether you mount the pump on a skid tank, in a truck bed, or install it on a large bulk tank at a remote construction site, a Fill-Rite G-series DC pump delivers high flow and rugged dependability. It also means flexibility since Fill-Rite DC pumps are available in 12 and 24 volt DC models.

PLANT SURVEYS • CRIMP EQUIPMENT LEASING PROGRAMS • ON-SITE PLUMBING SUPPORT
• ON-SITE SERVICES INCLUDE MANUFACTURING, INSTALLING, ROUTING & TESTING
HOSES • CONVEYOR BELT INSTALLATION & VULCANIZATION • SAFETY EQUIPMENT &
PROTECTIVE CLOTHING • ABRASIVES, TOOLS & SLINGS
