ROCKQUEST

CONVEYOR BELTING ONE & TWO PLY I-WARP

VIKING ROCKQUEST Conveyor Belting with an I-Warp construction has been designed for the toughest belting applications where low-stretch, impact-resistant, high strength belts are needed.

BENEFITS

- Impact Resistant
- Rip Resistant
- Low-Stretch
- Superior Lace Retention
- High Cover Adhesion
- Cut, Gouge, and Tear Resistant
- Load Support
- Outstanding Troughability

INDUSTRIES

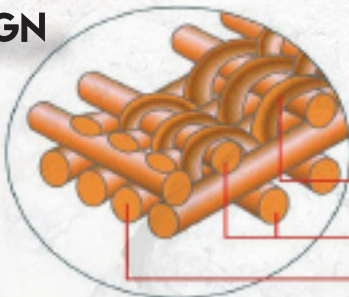

- Quarries
- Log Handling
- Cement Industry
- Recycling
- Automobile Shredding
- Heavy Metal Scrap
- Mining
- Construction

APPLICATIONS

- Large Stone
- Heavy Ore
- Bucket Elevators
- Copper Ore
- Feeders Under Rock-Crushers
- Primary Crushers
- Magnetic Separators

THE I-WARP DESIGN

VIKING™ ROCKQUEST One and Two Ply I-Warp belt's reinforced carcass construction resists rips, tears and gouging caused by heavy impacts. The belt provides exceptional durability because of its tough synthetic carcass and heavy duty RMA Grade I covers. It also has excellent bolt-holding capabilities for buckets and mechanical fasteners, a significant improvement over standard straight warp belts.

VIKING ROCKQUEST SPECIFICATIONS

1-PLY

Cover Gauge.....	1/4" x 1/8"
Belt Carcass Gauge	0.1295
Working Tension Rating	440 PIW
Cover Grade	RMA I
Construction Warp	Polyester
Construction Fill Weft	Nylon
Cover Tensile Strength	Min. 2600 PSI
Cover Elongation	Min. 500%
Cover Hardness	63+3 (SHORE-A)
Minimum Pulley Diameter	12"
Temperature Range	-40C to +60C

2-PLY

3/8"x1/8"
0.1295
800 PIW
RMA I
Polyester
Nylon
Min. 2600 PSI
Min. 500%
63+/-3 (SHORE-A)
16"
-40C to +60C

SERVICES

Installation + Vulcanizing Crews

We understand that time is money and the quality of our service is a large part of your success. We pride ourselves in troubleshooting conveyor belt system problems and providing effective solutions.

We offer on-site installation with on or off-site vulcanization for belt up to 96" wide/. Cleating, V-guide, corrugated sidewall, elevator bucket belt punching and pulley lagging are also available. Completing **detailed belt surveys** is another way we can help improve your efficiency and decrease operating costs and break downs. Ask about our **OnGuard® belt management services**, which includes an online database available 24/7 with a complete maintenance history.
