History

R/W Connection, Inc. is a leading distributor of quality hose, conveyor belt and gaskets, as well as offering a full line of industrial supplies. Our goal is to not just deliver high quality products, but to offer a full array of services that complement them. We have in-house fabrication capabilities to support our hose, conveyor belt and gasket product lines. Services include, custom hose fabrication and testing, in-house die cut gaskets and field vulcanization for our conveyor belts to name just a few. We also provide many safety related on-site services such as overhead lifting sling inspections and safety seminars.

R/W Connection also realizes service is more than just about supplying a product. It is about always looking at ways to lower your procurement cost. We offer many different cost saving programs including, Consigned Inventory, Vendor Managed Inventory, Point of Use Programs, Inventory Rationalization and Reduction, Monthly Billing and EDI capability, all designed to take cost out of the process and tailored to meet your specific needs. We also offer Documented Cost Savings and Service Level Reports to help you keep ongoing track of our performance.

R/W Connection is more than just product. We are service, experience and proven solutions.
