

Accelerated EesySoft Implementation

During this challenging time, we know how important it is to help you get from implementation to utilization and success with EesySoft. For an accelerated process, please contact us at hello@eesysoft.com.

01

Install EesySoft

Request the EesySoft B2 or plugin after purchase to receive the installation instructions.

02

Meet with our consultants

Schedule a meeting with our team to go through your set up options and help you launch your first campaign.

03

Use the EesyAcademy

Visit eesysoft.com/academy to watch the Quick Start video series and complete the related exercises.

04

Launch EesySoft

Activate EesySoft in your production environment and you're set! Next - get inspired from the [EesySoft Universe](#).

"EesySoft is a fantastic tool. The team helped us quickly implement during the COVID-19 crisis, going from install to live in just a matter of days. They continue to go above and beyond with support and content development during these unprecedented times."
